Inspection and QA/QC for Trenchless Projects

John Matthews, Ph.D., Director/Associate Professor-Trenchless Technology Center, Louisiana Tech University

With more than 14 years in the rehabilitation of pipelines, Matthews has given more than 100 conference presentations and authored more than 150 publications in the area of trenchless technology.

Piero Salvo, President, GAME Trenchless Consultants

In addition to being president of his consulting company, Salvo is a part-time professor at Concordia University, where he teaches a Trenchless Technology course.

Jon Nix, Vice President & Co-Owner, Claude H. Nix Construction/Jasco Inc.

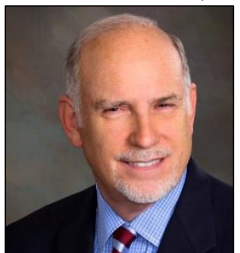

Nix has been in the underground/trenchless industry for 23 years, and his Ogden, UT, company has been in the underground industry for more than 40 years.

Ed Kampbell, P.E., President, Rehabilitation Resource Solutions LLC

The bulk of Kampbell's 39-year engineering career has involved design and installation of buried pipeline systems, covering a wide variety of applications and environments. He has worked on all sides of the pipeline equation: owner, manufacturer, contractor and currently, consultant to the trenchless pipeline rehabilitation industry.

Bevin Beaudet, P.E., President/Owner, Bevin A. Beaudet, P.E., LLC

Beaudet's more than 45 years of broad-based utility experience includes evaluating trenchless technology systems to replace aging infrastructure, and capital improvement planning and implementation of asset management. His current engineering consultancy specializes in utility troubleshooting, regulatory compliance issues, and infrastructure repair and replacement.
