

**TRACK VIII = SEWER REHABILITATION STRATEGY SEMINAR**

**Wednesday, Jan. 31**

**8:30-11:55 a.m.**

*Speaker Bios/Photos Received To-Date*

**George Kurz, P.E., DEE**, Consulting Engineer, Sewer Capacity Management

**Patrick Stevens, P.E.**, Vice President Engineering, ADS Environmental Services

While at ADS Environmental Services, a firm specializing in measuring sewer performance for cities throughout the country, Stevens has served as deputy program director for the King County, WA, Regional I/I Control Program, believed to be the largest flow metering project ever conducted in the U.S. He has also helped develop a web-based management tool to deliver real-time sewer flow events.
