

TRACK VII = WORKSHOP ON MUNICIPAL GROUTING

Wednesday, Jan. 31

8:30-11:55 a.m.

Speaker Bios/Photos Received To-Date

Ron Manestar, Southeastern Service Manager, Aries Industries Inc.

Joining Aries Industries in 1997, Manestar is the company's grout systems consultant, and has been an enthusiastic contributor and organizer for the Grout Schools. His current role involves training customers on repairing, operating and maintaining TV inspection equipment and chemical grouting systems.

Marc Anctil, President, Logiball, Inc.

Joining Logiball in 1994, in sales of test & seal packers and pipe plugs, Anctil eventually became product line manager. His industry expertise and contributions include development of ASTM standard practices covering application of chemical grouts for infiltration control in sewers, numerous papers and presentations on the subject, and active participation in the Municipal Sewer Grout Schools since they started 10 years ago.

Don Rigby, Vice President-Marketing & Education, Avanti International

Leveraging 35 years of marketing, business-development and management experience in high-tech and environmental engineering industries, Rigby is responsible for strategy and execution of Avanti's marketing and educational programs. He is a member of WEF and active on the I&I Collections Committee, and chairman of the NASSCO/ICGA Membership and Marketing Committee.
