

TRACK X = MANHOLE REHABILITATION

Wednesday, Jan. 31

Speaker Bios/Photos Received

9-9:25 a.m.

New Inspection Technologies & How to Use the Info in MACP

TBD

9:30-9:55 a.m.

When, Why and How of Manhole I&I Elimination

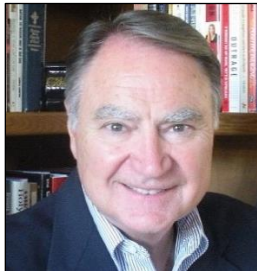

Don Rigby, Vice President-Marketing & Education, Avanti International

Leveraging 35 years of marketing, business-development and management experience in high-tech and environmental engineering industries, Rigby is responsible for strategy and execution of Avanti's marketing and educational programs. He is a member of WEF and active on the I&I Collections Committee, and chairman of the NASSCO/ICGA Membership and Marketing Committee.

10-10:25 a.m.

Cementitious Liners

Bill Shook, President, AP/M Permaform

Shook is president and founder of Action Products Marketing Corp., which provides trenchless solutions for manholes and large-diameter pipe through a global network of certified applicators. He has been a member of NASSCO since 1987 and served as its president in 2006.

Ed Kampbell, P.E., President, Rehabilitation Resource Solutions LLC

The bulk of Kampbell's 39-year engineering career has involved design and installation of buried pipeline systems, covering a wide variety of applications and environments. He has worked on all sides of the pipeline equation: owner, manufacturer, contractor and currently, consultant to the trenchless pipeline rehabilitation industry.

10:30-10:55 a.m.

Corrosion Protection With Polymer Liners

John McGill, Technical Director, Raven Lining Systems

McGill has 25 years of experience in protective coatings and linings, as a supplier of high-performance materials for the water and wastewater, power, petrochemical and pipeline markets. He is certified by the Society for Protective Coatings as a Protective Coatings Specialist (PCS) and Level 2 Concrete Inspector, and by the National Association of Corrosion Engineers as a Level 3 Coating Inspector.

11-11:25 a.m.

The Importance of Proper Inspection

Rocky Capehart, President, Rocky Capehart LLC
