

EXHIBITOR SHOWCASE

ACE PIPE CLEANING INC.#517
www.acepipe.com

ACE PIPE CLEANING
 A Cuytlen Company

Ace Pipe Cleaning has been cleaning, inspecting and repairing America's infrastructure for 64 years. Today, we are one of the largest, most experienced firms in the nation. Our services include: water main inspection/leak detection, laser/sonar/HDCCTV profiling, LiDAR/sonar/HDCCTV profiling, sanitary sewer-storm sewer cleaning, storm sewer rehabilitation, lateral connection repair, CIPP trenchless lateral repair.

AEGION CORPORATION#417
www.aegion.com

iPlus®
 Infusion UV
 is our latest
 technological
 innovation. By

combining the benefits of UV cure technology with the 5.5 million feet of iPlus® Infusion manufacturing and saturation experience, Insituform has created the next generation UV CIPP. Continuous monitoring of the curing process, 30% more cost effective than UV glass materials, meets or exceeds ASTM F1743, with the benefit of light curing, 100-year engineered design life.

AKKERMAN#623
www.akkerman.com

The ABIS
 (AKKERMAN
 BENTONITE
 INJECTION
 SYSTEM)

delivers automated Bentonite injection at exact intervals which are all controlled centrally from the system monitor. The Bentonite injection reduces the jacking forces during Pipe Jacking and Micro-tunneling operations. For more information on the ABIS and other Akkerman equipment, visit us at akkerman.com.

AP/M PERMAFORM#518
www.permaform.net

AP/M
 Permaform®
 offers Per-
 macast® and
 CentriPipe®

for no-dig repair of manholes, pipe and similar underground structures. CONmicSHIELD® prevents MIC in sanitary sewers. CRYSTAL-X® provides waterproofing protection for concrete.

Trusted by cities, engineers, and contractors since 1975. Visit us at www.permaform.net then call (800) 662-6465 for assistance with your next project!

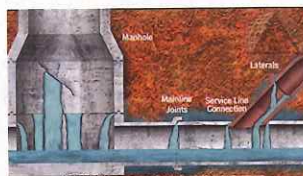

APPLIED FELTS#639
www.appliedfelts.com

We provide
 hybrid liners
 that incorporate
 fiberglass to meet

the rapidly expanding application of traditional CIPP solutions. Combining fiberglass reinforcement with our existing, best-in-class felt liner materials fully integrates and blends the unique properties of each, providing the strongest, most robust liner on the market today for your gravity sewer, pressure pipe and potable water applications.

AVANTI INTERNATIONAL#645
www.AvantiGrout.com

Avanti's AV-100 is a chemically reactive, low-viscosity gel that creates a long-lasting water barrier and superb soil stabilization. AV-100 permeates anywhere water can travel and cures in controllable set times of 5 seconds to ±10 hours. It's used to rehabilitate and sustain municipal sanitary sewer collection systems by eliminating infiltration.

BARBCO INC.#608
www.barbco.com

BAROID INDUSTRIAL DRILLING PRODUCTS#318
www.baroidipd.com

BESTOLIFE CORPORATION#702
www.bestolife.com

New STING-
 ER™ Brand
 Compounds
 from BESTO-
 LIFE™ provide
 Horizontal
 Directional

Drilling contractors with performance they can rely on in the harshest conditions. Our thread compounds are specially formulated for use on all HDD applications, and provide unrivaled galling and seizing protection for a wide range of environmental conditions.

BJM PUMPS#505
www.bjmpumps.com

KZN Series heavy-duty submersible slurry pumps are designed for the harshest conditions: Top discharge, slim-line design with agitator to suspend heavy slurries containing sand, gravel, drilling mud, coal or ash

for ease of passage; GPM to 1690; heads to 77'.

BLOOD HOUND LLC#904
www.bhug.com

Private Utility Locating requires special training and equipment to detect, mark and map hard to find underground utilities and structures for comprehensive safe digging. Complimentary services for enhanced project safety and efficiency include ground penetrating radar, cross-bore mitigation, vacuum excavation, concrete scanning, subsurface utility engineering, traffic control and leak detection.

BUCKHORN PUMPS#910
www.buckhornpumps.com

BUZZI UNICEM USA#826
www.buzziunicemusa.com

CCI PIPELINE SYSTEMS#612
www.ccipipe.com

CCI specializes in engineering, design, geo-technical investigations, construction inspection and environmental planning/oversight within the trenchless industry. Please give us a call at 281-660-2394 to see how we can help on your next project.

CENTER FOR UNDERGROUND INFRASTRUCTURE RESEARCH & EDUCATION (CUIRE)#902
www.cuire.org

CUIRE is a university/government/industry cooperative research center. The organizational structure of CUIRE provides two lines of authority: The University of Texas at Arlington and the Industry Board (IB). UTA provides an oversight committee that supervises operations of the

Center. The Industry Board provides policy direction, reviews budgets, and monitors progress of the projects.

CHARLES MACHINE WORKS#223
www.ditchwitch.com

Charles Machine Works is the underground authority – a family of companies delivering the most advanced equipment and solutions for underground construction and services in the world today. Our family includes Ditch Witch®, Subsite® Electronics, DW/TXS®, HammerHead®, Radius® HDD, American Augers®, Trenchor®, and MTI® Equipment. Together, the Charles Machine Works family of companies offers the most complete line of solutions for the full life-cycle of underground pipe and cable.

CIPP CORPORATION#538
www.cippcorp.com

CIPP Corporation's team of premier installers will fully assess your pipeline needs and provide the best solutions available. Our team acts regionally, thinks locally and meets nationally to discuss trends, new products and techniques. We are dedicated to improving CIPP installations and quality, as well as other pipeline rehabilitations.

CONTAINMENT SOLUTIONS#332
www.containmentsolutions.com

Containment Solutions Inc. (CSI) manufactures non-corrosive fiberglass manholes, wetwells and rehabilitation manholes. Our products are built watertight,

designed as single structural units and able to withstand H-20 traffic loads. We provide cost-effective products for all types of water, wastewater and green-building applications.

CONTECH ENGINEERED SOLUTIONS.....#533
www.conteches.com

Contech® Engineered Solutions is a leading civil engineering site solutions products and services company.

Contech is the only company that can provide bridge, drainage, erosion control, retaining wall, sanitary, soil stabilization, and stormwater solutions on a national scale. Pipe products include: HEL-COR® and ULTRA FLO® corrugated metal pipe, Slotted Drain, A-2000® and A2™ Liner PVC, HDPE and DuroMaxx® steel reinforced (SRPE) pipe.

CRETEX SPECIALTY PRODUCTS ..#733
www.cretexseals.com

PRO-RING™ is the most advanced concrete-alternative manhole and catch basin grade adjustment system available. Available in round, square and rectangular, PRO-RING™ is manufactured from Expanded Polypropylene (EPP) which is renowned for its exceptional strength to weight ratio, durability, chemical resistance and long service life under harsh conditions.

CUES INC.....#801
www.cuesinc.com

The SPIDER Scanner is the first wireless and color manhole inspection technology in a lightweight

and compact form. The SPIDER is a scanner that calculates its position in the manhole shaft by using its sensor data to measure incremental motion instead of the payout cable. SPIDER weighs less than 30 pounds and can be hand carried to easements or other previously difficult to access sites.

DANBY, LLC.....#507
www.danbyrehab.com

Danby is a Grout-in-Place PVC liner used in new and rehab of pipes

>36 and any shaped structures: arch, semi-elliptical, oval or box. Danby is a structural solution designed for 50-plus years of life, provides a barrier to H2S corrosion, and improves hydraulic performance with minimum loss of diameter.

DIGITAL CONTROL INC.....#630
www.digitrak.com

Digital Control Inc.'s DigiTrak Falcon F5® improves contractors' bottom line by combatting active interference via a built-in scanner that selects the least effected frequencies available from 4.5 kHz to 45kHz. Falcon transmitters are customized to each drill site's individual interference profile; contractors always go underground with the most appropriate frequencies.

DOETSCH ENVIRONMENTAL SERVICES.....#846
www.doetschenv.com

With over a century of sewer cleaning experience, Doetsch offers solutions for large-diameter,

long-reach, difficult-access and impossible-cleaning tasks. Download our free App for calculating sewer debris volume and weights in a pipe. Available for iPhone and Android.

DSI TUNNELING LLC.....#701
www.dsiunderground.com

DUKE'S ROOT CONTROL.....#635
www.dukes.com

Duke's has sewer root control down to a science. Tree root infiltration is preventable, but without the proper maintenance steps, it will

destroy a collection system. We prevent sanitary sewer overflows (SSOs) before they cause major havoc to systems and communities. Using Duke's exclusive Razorooter II – a diquat-based herbicide registered by the EPA for controlling roots in sewer systems – Duke's guarantees to kill roots.

E&M SUPPLY GROUP LLC.....#516
www.drillpipesupply.com

We are proud to offer a complete line

of maxi-rig drill pipe options. We have 10 acres of stock inventory located in South Louisiana, including 4 1/2" IF, 5 1/2" FH, DS55, 6 5/8" FH, and DS65. Also, we carry drill-and-leave drill pipe, rotary subs and non-mag drill collars.

EFFICIENCY PRODUCTION.....#312
www.encyproduction.com

Efficiency Production—America's Trench Box Builder™—provides the widest

selection of standard and custom trench shielding and shoring systems; including: steel and aluminum Trench Shields, Steel Manhole Shields, The Industry leading Build-A-Box™ Aluminum Modular Trench Shielding System, Hydraulic Shores and shields, and the industry's premier Slide Rail System.

EGSW.....#436
www.egsw.us

ENVIROCON SYSTEMS INC.....#327
www.enviroconsystems.com

EnviroCon Systems Inc. is a geomembrane installation and consulting company that specializes in the supply and installation of geosynthetic

liners for environmental, industrial, architectural, commercial and agricultural uses. In addition, EnviroCon offers a full service division for HDPE pipe and fusion machine rental, spill containment and custom fabrication.

FERRATEX INC.....#727
www.ferratex.com

We are a cure-in-place liner manufacturer with multiple wet-out locations throughout the country. We service our customers making 3" to 120" with a full line of rental equipment and technical support.

GAJESKE INC.....#537
www.gajeske.com

Gajeske Inc. product lines range from small- to large-diameter, high- and medium-density polyethylene pipe, fittings and accessories, to every size of McElroy fusion machines, which are available for sale or rent. Services include certified technicians and mechanics, custom fabrication services, fusion and operator qualification, and safety training.

GRANITE INLINER.....#424
www.inliner.com

Granite Inliner **GRANITE inliner** was formed in 2018 as the union of three leading wastewater rehabilitation companies: Layne Inliner, Kenny Underground, and Liqui-Force. With a guiding emphasis on safety, innovation, and single source accountability Granite Inliner offers clients one of the most diverse collections of rehabilitation solutions in the industry.

HERRENKNECHT TUNNELLING SYSTEMS.....#528
www.herrenknecht.com

A new high torque rotary Drilling Rig with 500t (1,125,000lbs) pullforce will

be available in early 2019. Torque has been increased by 30% to 180,000Nm (133,000 ft-lbf) to cope with larger tool joint connections. This opens up new opportunities for larger and longer HDD drills in the future.

HI-VAC CORPORATION.....#822
www.hi-vac.com

HI-VAC CORPORATION's AQUATECH products offers a complete range of sewer cleaning products with sizes ranging from 6 cubic yards to 15 cubic yard combination sewer cleaners. The X-VAC hydro excavators provide power, payload and performance with the

EXHIBITOR SHOWCASE

largest legal payload available. For more information, please visit www.hi-vac.com or call 1-800-725-2400.

HOBAS PIPE USA.....#429
www.hobaspipe.com

HOBAS pipe is suitable for virtually every installation method of new construction and rehab. The centrifugally cast, fiberglass-reinforced, polymer

mortar pipe is inherently corrosion resistant. Key applications are sanitary and storm sewers, other corrosive environments and potable water. Pressure and gravity pipe diameters range from 18 to 126 inches.

HOLLY PIPE CORP.#426
www.hollypipe.com

Drillers who need integral threaded pipe casing can rely on Holly Pipe to supply the stuff to get it done. Our casing is manufactured with flush joint connections on jobs of all kinds where making and breaking the connections is required. We offer a range of sizes in OD from 4 1/2" - 21" and lengths in any increments up to 45'.

HTS PIPE CONSULTANTS#419
www.htspipeconsultants.com

HTS Pipe Consultants is a materials testing and consulting firm specializing in the testing of cured-in-

place vinyl ester, polyester, epoxy and glass-fiber-reinforced resins. Services include the determination of flexural and tensile strength, flexural creep and chemical resistance properties. All testing is performed in accordance with ASTM, Greenbook and ISO Standards.

HUNTING TRENCHLESS#315
www.hunting-intl.com/trenchless

Hunting's Trenchless Division intro-

duces the HX-1TRN™ Quick Connect. This product requires just a single, 360° rotation to fully connect or disconnect transition subs, starter rods, pulling adapters, backreamers, and other downhole tools for rigs in the 40,000-lb class and below. With its patent-pending Quad-Lead design, it provides exponential time savings and a safer work environment.

ICS, BLOUNT INC.#325
www.icsdiamondtools.com

INLAND PIPE REHABILITATION...#316
www.teamipr.com

IPR has a portfolio of trenchless rehabilitation solutions tailored to

service the needs of our municipal and industrial clients. While CIPP offers a cost effective solution to extend the design life of the host pipe, pipe bursting can increase the ID of the pipe to support population growth. Our EcoCast system is a large-diameter, structural solution with a reduced footprint and reduced installation risk.

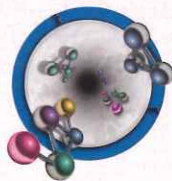

INLINER TECHNOLOGIES#422
www.inliner.com

Inliner Technologies, a leader in cured-in-place pipeline

renewal, provides solutions for deteriorating pipes and culverts ranging in diameter from 6 inches to 120 inches. With a focus on superior customer service and innovation, Inliner has earned a reputation for unmatched integrity and quality - installing more than 30 million feet of CIPP throughout the United States.

INTERPLASTIC CORP.#723
www.interplastic.com

One Step CIPP resin system is a Patent Pending system designed to be a simpler, safer

process with a single liquid initiator. One Step benefits include: Labor savings, safety benefits, no need for mixing a dust or flake, requires no heating and system working time minimizes premature liner gelation.

J.T. MILLER LLC.....#604
www.jtmillerllc.com

J.T. Miller Inc. specializes in drill pipe, drill bits, hole openers, mud motors and HDD accessories for maxi-rig applications. We offer new and used premium class drill pipe. We maintain an inventory of high quality new TCI and mill tooth drill bits from 6 1/2 inches through 12 1/4 inches. We also offer dies and Gearinch tongs, as well as a large inventory of HDD accessories and consumables.

JIM COX SALES INC.#830
www.jimcoxsales.com

Ductile iron municipal castings for water and wastewater applications. Stop by our booth and sign up for a free on-site demonstration.

KERNEOS INC.#539
www.sewpercoat.com

SewerCoat is the ultimate mineral solution for the municipal wastewater industry to provide structural, corrosion-resistant protection against biogenic corrosion relative to hydrogen sulfide (H₂S) found in wastewater environments. SewerCoat is the original 100% calcium aluminate, backed with a no-nonsense, 10-year labor and materials replacement warranty.

LMK TECHNOLOGIES.....#616
www.lmktechnologies.com

LMK's ASTM F2561 compliant T-Liner® is a one-piece homogenous main-to-lateral CIPP connection liner that renews

18-inches and 360-degrees of the mainline and extends up the lateral pipe as one continuous lining. T-Liner with ASTM F3240 compliant Insignia™ compression gasket-sealing technology provides a verifiable non-leaking system.

LOGAN CLAY PRODUCTS LLC. ...#828
www.loganclay.com

NO-DIG Pipe by The Logan Clay Products Company is Vitrified Clay Jacking Pipe featuring high axial strength and

precision machined joints.

The pilot tube method using NO-DIG Pipe provides a highly accurate and economical trenchless installation method for gravity flow applications. NO-DIG Pipe has been used in trenchless installations throughout the U.S. and Canada for over 20 years.

MADEWELL PRODUCTS CORP....#636
www.madewell.net

MAXLINER.....#639
www.maxlinerusa.com

CIPP MaxLiner System - Max LinerGun inversion equipment for lining pipes

4"-8", Digital Scale, Mixing Bit, Vacuum Pump, Calibration Roller, Air Regulator, LinerPlugs and Training. Combine the MaxSystem with your choice of a mobile heating unit (Hot Water, Hot Air or Steam) to decrease curing time and increase your production.

MCELROY MANUFACTURING#532
www.mcelroy.com

McElroy is the leading manufacturer and innovator of pipe fusion equipment. Visit our booth to see new products highlighting McElroy's capability, productivity improvements for the market and our commitment to technology. As pipe fusion experts, we can show you why fused pipe is improving the world's pipeline infrastructure.

MILLER PIPELINE.....#601
www.millerpipeline.com

The WEKO-SEAL®, the industry's leading internal joint seal technology, is used extensively for internally resolving joint leakage, punctures and crack repairs in pipelines ranging in diameter

from 18" and larger. Its unique design incorporates a series of proprietary lip seals that create a leak proof fit on either side of the joint. With the WEKO-SEAL @, the leaks stop here!

NASSCO INC.#745
www.nassco.org

Need training? NASSCO's Assessment Training Programs for pipes, manholes and laterals (PACP, MACP & LACP) have become international standards. Inspectors for CIPP & Manhole Rehab projects rely on ITCP to better understand and inspect trenchless infrastructure renewal technologies. Whether assessing or installing, set your job up for success by being certified. Learn more at nassco.org.

NASTT - NORTH AMERICAN SOCIETY FOR TRENCHLESS TECHNOLOGY#912
www.nastt.org

NASTT has published two Introduction to Trenchless Technology Good Practices Guidelines in New Installation Methods and Rehabilitation. They are intended to provide contractors, engineers and utility owners with an overview of various trenchless methods available. All NASTT publications are peer reviewed by volunteer industry professionals to ensure accuracy and non-biased information.

NATIONAL LINER.....#545
www.nationalliner.com

National Liner®

National Liner, through its network of experienced North American installers, provides CIPP products and services to municipal and industrial customers to rehabilitate deteriorated pipe. National Liner, established in 1994 has installed in excess of 18 million liner feet of pipe.

NATIONAL TRENCH SAFETY.....#435
www.ntsafety.com

NORTH AMERICAN PIPE CORPORATION#519
www.northamericanpipe.com

North American Pipe Corporation manufactures the Certa-Lok® restrained-joint PVC pipe locking system designed for use in above or below ground, and

permanent or temporary applications including static pipe bursting, HDD, open-cut, and temporary bypass. Certa-Lok's segmented PVC pipe solution reduces jobsite footprints and minimizes jobsite staging area and traffic control needs.

NUKOTE COATING SYSTEMS.....#442
www.nukoteglobal.com

The Nukote Aegis system combines ultra-fast elastomeric product chemistries with Nukote 360Ringtech Robotics application equipment to provide cutting edge solutions for both renovation and construction of liquid containment and distribution systems. Nukote Liners are suitable for all substrates common to collection, storage, processing and delivery of liquid systems.

OBIC LLC.....#202
www.obicproducts.com

OX EQUIPMENT INC.#233
www.ox-equipment.com

Ox Equipment is the North American distributor for German

manufactured MTS Dry Suction Excavation Equipment. 24,000 CFM of dry suction power combined with a 10" diameter boom excavates without adding water, eliminating issues related to slurry disposal and overweight loads. Side-tipping allows you to dump on site, and stay on site, all day.

PENTAIR FLOW TECHNOLOGIES LLC.....#433
www.pentair.com

Reciprocating pumps for use with water and drilling mud on HDD equipment, hydro-excavators and other high pressure applications.

PERMA-LINER INDUSTRIES.....#423
www.perma-liner.com

Perma-Liner's Hybrid Vinyl Ester resin is eco-friendly and has a high-rigid polymer backbone. Some key features to this resin include

snap cure, superb catalyzed stability, high temperature performance and resistance to sag and draining around vertical surfaces and reinforcement. It has no styrene and no volatile organic compounds.

PERMALOK - A NORTHWEST PIPE CO.#646
www.permalok.com

The Permalok steel casing joint utilizes a precision-machined interference fit that eliminates the need for time-intensive, field-applied butt

welds on trenchless installations. The result is increased productivity, increased safety during assembly and installation, watertight joints, high compressive strengths and most importantly, proven substantial construction savings.

PICOTE SOLUTIONS INC.#845
www.picotesolutions.com

PIONEER ONE INC.....#800
www.pioneeronehddp.com

Pioneer One is a HDD hammer production and service company. With 50+ years in the HDD industry and around-the-

clock, worldwide service support and training, we provide the most productive, durable and adaptable HDD air hammer system on the market. Our Prospector Air Hammer technology will make any directional drill a rock drill that's easy to steer and most effective in the field.

PIPELINE PLASTICS LLC.....#534
www.pipe.us

Pipeline Plastics utilizes PE 4710 resin

which is a high performance bimodal High Density Polyethylene (HDPE) to manufacture 1"-

65" diameter pipe. The pipe's heat fused joints provide a leak free, NSF certified quality water system which is corrosion and seismic resistant to ensure a lifetime of safe and clean water.

PIPELINE RENEWAL TECHNOLOGIES#400
www.pipelinerenewal.com

For stand-alone point repair, or pre-lining under high infiltration, Quick-Lock

sleeves offer rapid, easy-to-install, economical pipeline rehab. Suitable for sewer, water and industrial applications, sleeves install in minutes restoring structural integrity while sealing out infiltration. Quick-Lock addresses a variety of pipe problems: cracks, roots, holes, leaks, offsets and abandoned laterals.

PLANGRID.....#811
www.plangrid.com

Used on over 1 million projects around

the world, PlanGrid is the first construction productivity software that allows contractors and owners in commercial, heavy civil, and other industries to work and collaborate from anywhere.

PRO-PIPE#613
www.pro-pipe.com

Pro-Pipe does Condition Assessment, Lateral Connection Sealing/Rehabilitation, and Wastewater Asset Management.

RAILHEAD UNDERGROUND PRODUCTS LLC.....#634
www.railhead.com

Railhead's Exchange Program includes other manufacturers' knock off rock tools as

well as our tools. Your tool is worth \$ in exchange value when you buy a new Railhead! Replace that knock off with the tool that set the standard. Call a dealer or call Railhead at 817-594-6663.

EXHIBITOR SHOWCASE

RAINSTOPPERS #633 www.therainstopper.com

The Rainstopper Manhole insert is a highly corrosion resistant Stainless Steel inflow protector that stops all flow of rainwater into sewage system. It is the quickest to install, easiest to use and most cost effective way to eliminate inflow.

RELIN AMERICA INC. #401 www.relineamerica.com

Alphalin-er, our Glass Reinforced Pipe (GRP) liner, cured using ultra violet (UV) is your environmentally friendly choice for storm and sanitary pipe line rehabilitation. Visit us to find out how you can benefit from a single source liner and equipment manufacturer - RELINE AMERICA.

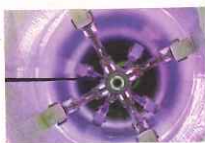

ROOTX #323 www.rootx.com

The RootX root control product is engineered exclusively for municipal sewer maintenance departments to do effective in-house root control. Utilizing existing sewer maintenance equipment, municipal sewer crews can apply RootX to their sewer and storm pipes, killing roots and reducing SSOs on their own schedule without having to fit into a contractor's schedule.

SAERTEX multiCom LP #415 www.saertex-multicom.com

The high-strength, tight-fitting, environmentally friendly,

UV-cure glass fiber Saertex liners are available for storm and wastewater gravity pipes, pressure pipes and potable water pipes, from 6" to 64". They are manufactured in our ISO 9001 North Carolina facility and shipped to your job site. Highly experienced technicians and rental equipment are available to train and support you.

SAUEREISEN INC. #338 www.sauereisen.com

Sauereisen Sewer-Gard® 210XHB is a 100% solids,

high-build, fast setting, high-strength epoxy polymer lining. 210XHB is a chemical-resistant barrier for concrete, masonry, brick, and steel substrates that can be sprayed up to 300 mils per coat. Applications range from manholes and lift stations to tankage, structural steel, digesters, clarifiers and secondary containment.

SEALING SYSTEMS INC. #514 www.ssisealingsystems.com

Preventing infiltration during the construction process is very cost effective and simple. INFI-SHIELD external seal

is the best solution, since it increases system capacity by preventing erosion and infiltration in both manholes and catch basins. INFI-SHIELD is bonded with non-hardening butyl mastic and will pass a vacuum test.

SPECTRASHIELD LINER SYSTEMS #515 www.spectrashield.com

SpectraShield is a patented polymeric lining system designed to stop infiltration and prevent corrosion in wastewater structures. A

cost-efficient alternative to more traditional cementitious and epoxy systems, SpectraShield protects, restores, and adds life to aging wastewater structures including manholes, lift station wetwells and wastewater treatment plant structures.

STANDARD CEMENT MATERIALS #629 www.standardcement.com

Standard Cement Materials provides specialty cements

and grouts to rehabilitate the water and wastewater sewer infrastructure. Applications include storm sewer culverts, corrugated metal pipe restoration, sanitary sewer manholes, lift station rehab, and water treatment plant renewal. Restore structural integrity, stop water inflow/infiltration, protect against abrasion and chemically induced corrosion.

SUNBELT RENTALS INC. #333 www.sunbeltrentals.com

When it comes to fluid handling challenges, call the experts. The Sunbelt

Rentals Pump Solutions team will work with you from pre-bid to teardown, providing not only equipment, but insight and guidance based on years of expertise and experience. Regardless of location, season or project requirements, we're here to support you, 24/7.

T&T CARBIDE INC. #437 www.tandtcarbide.com

TENOWO INC. #334 www.tenowo.com

Our Multiknit nonwoven material is a stitch bonded felt proven to fulfill the demanding specifications of CIPP liners. With over a decade of sales in the strict European market, Multiknit is now being manufactured here in the USA. Multiknit offers good stretchability in the cross direction and limited stretchability in the longitudinal direction as well as no wrinkles in 90 degree turns.

THE STRONG COMPANY INC. #734 www.strongseal.com

Storm Seal® is a cost-effective solution for structural fatigue and corrosion in stormwater pipes. Storm Seal provides a system for rehabilitating corrugated metal, concrete, or masonry culverts, storm drains, and catch basins to stop inflow, infiltration, exfiltration, and restore structural integrity. It is a high building Type I/II Portland cement-based blend with pozzolans, masonry sand, alkaline-resistant fiberglass reinforcement,

and performance enhancing mixtures used to form a structural monolithic liner covering all interior substrate surfaces.

TRADEQUIP INTERNATIONAL #336 www.tradequip.com

Tradequip International, is the energy market's leading resource for global oilfield equipment and services. Tradequip delivers tremendous value and exposure as a fast, convenient way to buy and sell new and used equipment and services worldwide 24/7! (Media Sponsor)

TRY TEK MACHINE WORKS #239 www.trytek.com

The TRY TEK Model T150 Reinstatement Cutting System cuts in 5"-18" pipe. System includes a clutch-less electronic limiter for motor protection, sealed motor pod for durability, precise variable speed positioning for accurate cutting, standard game or joystick controller, panel mount PC based controller, and a clamshell design for easy maintenance.

TT TECHNOLOGIES, INC. #404 www.tttechnologies.com

UCT attendees will see fiber optic cable blowing equipment, a cable and pipe pusher, and the Grundopit pit-launched mini directional drill. TT Technologies will also display its line of Grundomat piercing tools, Grundoram pipe ramming tools and Grundoburst and Grundocrack pipebursting tools, as well as the Grundodrill 4X compact directional drill.

TULSA RIG IRON #314 www.tulsarigiron.com

**UNDERGROUND
CONSTRUCTION.....#823**
www.uctonline.com

Underground Construction is the largest audited-circulation magazine focusing on the underground construction and rehabilitation industry.

Edited for industry decision makers, we feature a wide variety of job stories, case histories, and application and up-to-date information, geared to keeping readers well-informed and educated. (Media Sponsor)

**UNDERGROUND
MAGNETICS INC.....#428**
www.undergroundmagnetics.com

Underground Magnetics Inc. will unveil the Mag 3 locating system at UCT. The Mag 3 offers the first dual 3-D antenna configuration producing exceptional accuracy. The Echo 1 transmitter is capable of 120' depth and data, multi-frequency best

noise avoidance technology.

**UNI-BELL PVC PIPE
ASSOCIATION.....#232**
www.uni-bell.org

PVC pipe is manufactured in the U.S. and Canada for drinking water, sanitary sewer, and storm sewer piping covering the 4" to 60" rigid PVC pipe market.

VACMASTERS.....#430
www.vacmasters.com

Vacmasters is the industry leader in air-vacuum excavation. With over 6 different models to choose from, Vacmasters offers the most diverse fleet of vacuum excavators available to utility professionals. Vacmasters prides itself on offering the most powerful, reliable and affordable equipment on the market

with thousands of satisfied customers worldwide. See a demo of the SYSTEM 5000: www.vacmasters.com/airdemo.html or phone 1-800-466-7825.

VAC-TRON EQUIPMENT.....#523
www.vactron.com

Vac-Tron's new Super Truck Vac (STV) Split Shaft PTO driven systems are available with 3000 cfm @ 18 Hg PD vacuum blower, and 6" hose and tooling with hydraulic boom. It comes standard with a high-pressure water system, full hydraulic rear door, reverse pressure, and the patented "Big Red" filter housing that cleans the air down to 0.5 microns.

VERMEER CORPORATION.....#605
www.vermeer.com

The RTX1250i2 ride-on tractor helps bring intelligent features and productivity to the forefront of the jobsite. With intelligent i2 series attachments, multiple productivity features and enhanced comfort with an optional climate-controlled cab, the i2 tractor can help make you more efficient on the jobsite and get you through rough terrain and difficult installs with confidence.

VERSAFLEX/RAVEN.....#728
www.ravenlining.com

Unlock the best of both worlds with the Raven AquataFlex 505 and 506 NSF/ANSI 61-certified products for potable water.

Designed for applications that require the increased chemical resistance of an epoxy, and the cure speed and flexibility of a polyurethane, both are USDA bio-based certified hybrid novolac epoxy urethane coatings with 100% solids, zero VOCs.

VORTEX COMPANIES.....#844
www.vortexcompanies.com

Schwalm USA is the nation's leading reseller, distributor and repair resource for Schwalm reinstatement cutters, SDT cutting tools, Picote pipe and drain tools and Deep Trekker pipe inspection crawlers. Schwalm USA is a division of the Vortex Companies, the nation's fastest growing trenchless products, services and solutions provider. For more information, go to www.schwalm-usa.com or www.vortexcompanies.com.

**WORLDWIDE DRILLING
RESOURCE.....#914**
www.worldwidedrillingresource.com

WorldWide Drilling Resource® IN PRINT – ONLINE – your choice! Easy-to-read top quality editorial. Classified Section

included. The ONLY drilling magazine which focuses on ALL aspects of the drilling industry; construction-geotechnical, directional, environmental, exploration-blasthole, shallow gas & oil, geothermal, mining, water well. Sign up, advertise!

WYO-BEN INC.....#226
www.wyoben.com

Wyo-Ben, Inc. continues to provide high quality sodium bentonite products throughout the world. Wyo-Ben's products are the innovative results of field driven solutions.
