

# Assessment Zone at UCT 2020

The Assessment Zone, co-sponsored by the North Texas Chapter of the UCTA and organized by industry personnel, is a dedicated area in the UCT exhibit hall where attendees can see and learn about equipment and technologies available to assess the structural integrity of utility pipe, avoiding catastrophic failure.

## Equipment and Technologies Include:

- Data collection
- Leak detection
- Laser profiling
- CCTV
- Sonar
- Smart ball
- Camera's
- ...and more

## Sponsors receive:

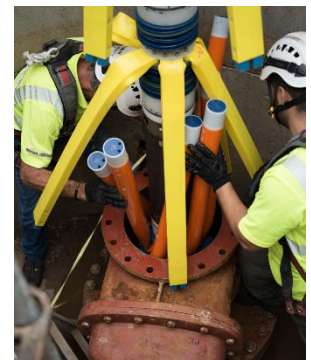

- Dedicated demonstration/display space
- Special signage
- Logo on promotional material
- 2 full conference passes
- Cost \$1,000

Showcase your equipment and technology in the Assessment Zone and help utilities manage risks, avoid emergencies and plan for the future.

**Sign up today!**
