

Combating the Shrinking Jobsite with Evolving Maxi HDD Systems

Speaker: Richard Levings – American Augers

Track VII-C: HDD

Date/Time: Wed., July 14; 10 -10:25 a.m.

Shrinking Jobsites

Past

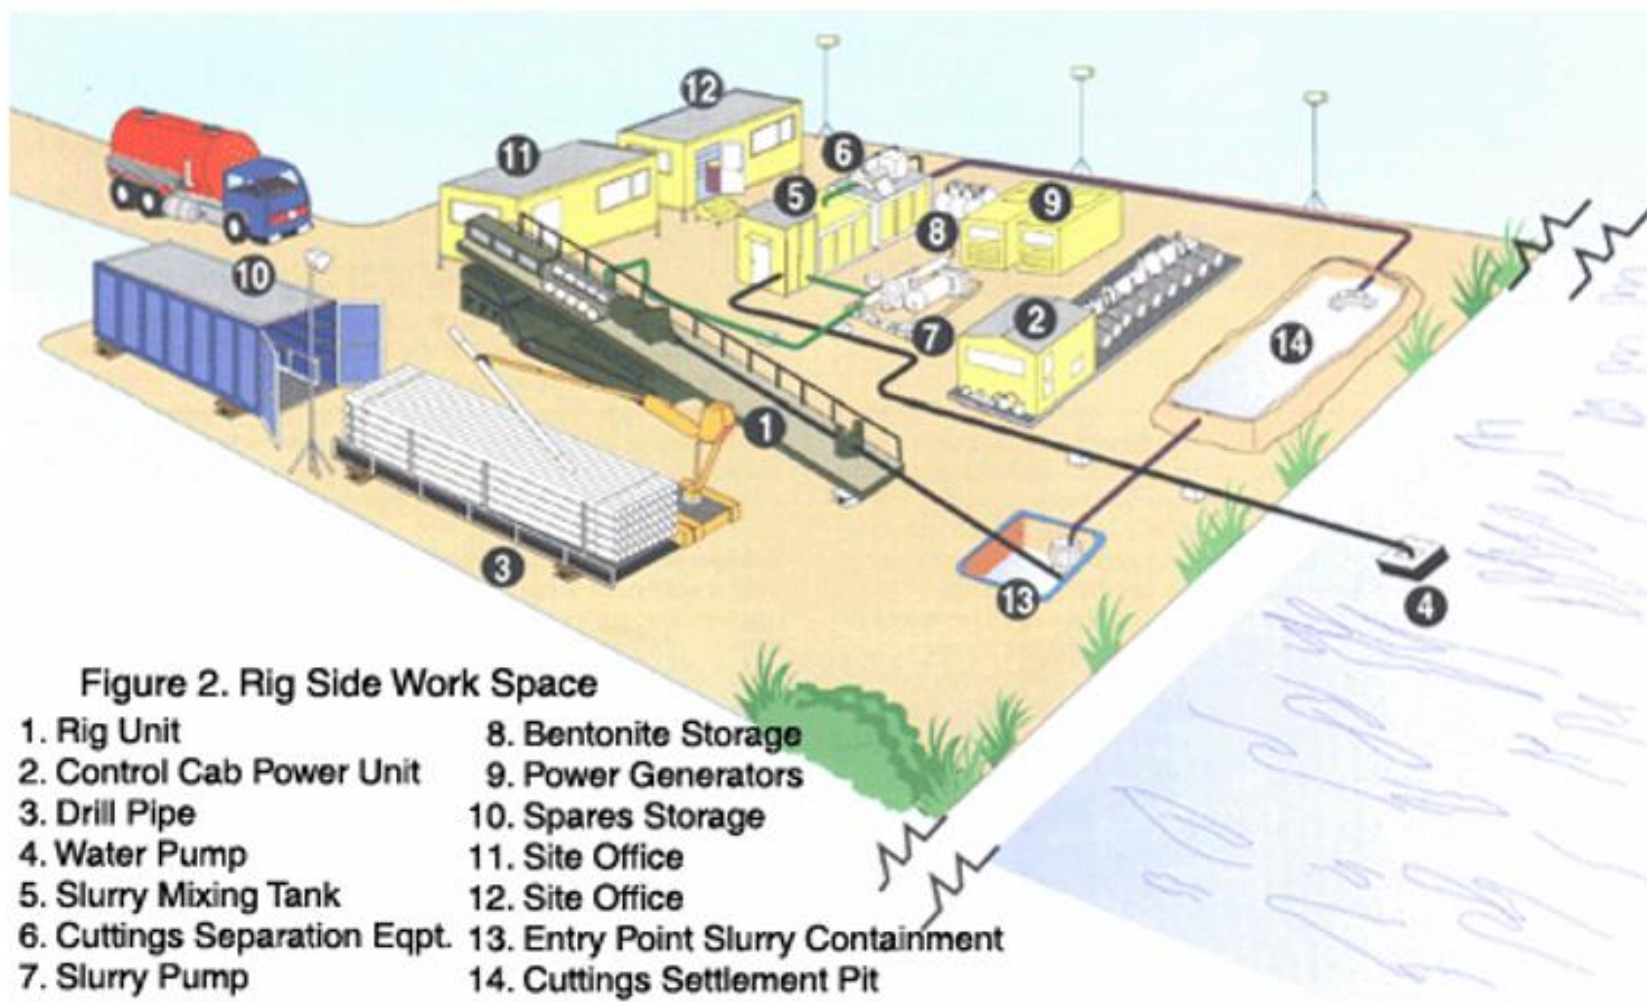

1. 250' x 250' for Maxi rig operations

Today: Varies by job

1. 23' x 150' is an extreme
2. 50' x 250' is more common
3. Most jobsites are determined by the width of the right of way
4. Urban and Suburban jobsites have additional challenges

Maxi HDD Jobsite
