

TRACK I-B=NASSCO/Sewer Operations

SPEAKERS

8:30-9:55 Remaining Useful Life: Gravity Pipe Assets

Chris Macey, Americas & Global Technical Practice Leader, AECOM

With over 44 years of experience, Chris has considerable expertise in complex condition assessment, pipeline deterioration analytics and pipeline rehabilitation techniques. He graduated from University of Manitoba in 1977 and has been with AECOM since 1978.

Chris has co-authored numerous standard practice and guidelines through AWWA, ASCE, NASTT, and NASSCO. In 2019, he was elected to the NASTT Hall of Fame for his work in Condition Assessment and life-long work in advancing Trenchless Technologies.

Jerry Weimer, Owner, Jerry Weimer Consulting

Jerry worked for the City of Cincinnati, Metropolitan Sewer District (MSDGC) in condition assessment and cleaning for 30 years. Today he serves as technical advisor for NASSCO, consulting and training in wastewater and stormwater collection, and participating on numerous NASSCO Committees.

A certified PACP trainer since 2005, he is also a PACP/MACP/LACP Master Trainer. He is a member of other industry organizations and has a Class 2 State of Ohio Wastewater Collection License.

10-10:55 Lateral Ownership: Pros & Cons

Brendan Doyle, Project Manager, BLD Services, LLC

Brendan has over 21 years of experience in sewer evaluation/rehabilitation, including the use of trenchless technologies, throughout the U.S. At BLD, he manages CIPP lateral lining projects in the Mid-Atlantic and Northeast, and oversees operation of BLD's lateral rehabilitation crews.

Previously, he was involved in the construction, planning, and management of various-sized projects, with total footage evaluated and rehabilitated approaching 4 million feet over 20 years.

He is also chair of NASSCO's Lateral Rehab Committee.

11-11:55 Artificial Intelligence: NASSCO Guidelines

Chris Mitchell, Asset Management Specialist/Project Manager/Lead Verifier, AECOM

Chris joined AECOM in 2006 working in North Wales, UK, before relocating to Winnipeg, Canada, within the Community Infrastructure Group.

He has utilized knowledge and training to become a Trainer for NASSCO's Pipeline, Manhole and Lateral Assessment Certification Program. In 2018, he was appointed NASSCO's Master Trainer for Canada, South and Central Americas.

He also supports several NASSCO committees, being integral to the production of its PACP Metric Manual and v8.0 Manual due 2023.

Mike Russin, Technical Lead, WinCan LLC

Mike has 20 years in the wastewater industry, working in both the private and public sectors as a contractor, consultant and vendor.

He specializes in providing asset management software solutions tailored specifically to the challenges that municipalities and wastewater management contractors face in the industry today.

He has been an active NASSCO member since 2002 and served as past chair of NASSCO's Software Vendor committee and the NASSCO Board of Directors.
