

Underground Infrastructure Conference (UIC) 2025

MONDAY, MARCH 3

Pre-conference Special Programs/Meetings only

8 a.m. – Noon	CUIRE School A – Rigid and Flexible Pipes Room #350A	CUIRE School C: HDD School Room #350B
1 – 5 p.m.	CUIRE School B – Comparison of CIPP and SIPP Methods Room #350A	CUIRE School D – Microtunneling & Pilot Tube School Room #350B

TUESDAY, MARCH 4

7:00-5:30	Registration
-----------	--------------

	Room 351EB Track I Sewer/Water	Room 351DA Track II Sewer/Water	Room 351FC Track III Microtunneling/Tunnels	Room 350ED Track IV Asset Management	Room 360AD Track V Utilities/Energy	Room 360BE Track VI HDD	Room 360CF Track VII HDD	EXHIBIT HALL/ THEATER
8 – 8:25	Evaluation of Volatile Organic Compounds During CIPP: Critical Role of Resin Liners & Curing Methods	Rehabilitating 48" Pressure Pipe with Robotics & Additive Manufacturing – Manufactured-In-Place-Composite Pipe (MICP)		Challenges of Developing Asset Management Plans (AMPs) for Small Utilities		Significance of Promoting a Healthy HDD Market		
8:30 – 8:55	Utilizing MOP 145 Design for the Front Street Interceptor CIPP Rehabilitation Project	From Dust to Gold: Pipe Reaming Renaissance in El Dorado, Kans.	Trenchless Shore Approaches: Role of Pipe Jacking and Direct Pipe for Various Applications		Case Study: Cross Bore Risk Mitigation for Telecom Installation in Fremont, Calif	Swivels: Design, Care & Maintenance	Small Gyro for Small Rig	
9 – 9:25	Update on Health, Safety Concerns Regarding CIPP Styrenated Resins	The Perfect Fit? Unraveling FFRP's Close-Fit and Loose-Fit Showdown	Let's Go Deeper: DWU's Cedar Crest Water Line Replacement	The Data All Lives in a Yellow Submerged Thing: Corpus Christi Water Inspects 101-Mile Pipeline in Single Run			Slurry Microtunneling Methods and HDD: Alternatives & Complements	
9:30 – 9:55		Water Pipe Bursting, New Way to Replace Aging Water Infrastructure in Fort Worth	Saving Trees & Installing Tees (bases); Routing 4 Miles of 48" Sewer Main through San Antonio Parks Trail System	Measure Today, Secure Tomorrow: Ultrasound Scanning's Role in Critical Pipeline Condition Data	Myth- Busting: Investment vs. Benefits of Undergrounding Electric Facilities	Increased Safety in HDD Installations using Bore Planning		
10 – 10:25	Woodson Village Water and Wastewater Rehabilitation	Fiberglass: Revolutionizing Water Infrastructure Management	Lessons Learned: Sanitary Sewer Project Converted to Pilot Tube Method	EPA's 'Clean Watershed Needs Survey' Results Compared to Field Surveys			Lowest Tooling Cost Per Foot – Case Studies	
10:30 – 1:30	EXHIBITS OPEN & LUNCH							11 a.m.-12 p.m. Top Safety Leadership Answers Questions on Underground Safety
11:30-1:00	MVP Luncheon (ticketed event)/Room #361A-F							
1:30 – 1:55	Back River Outfall Interceptor Rehab – An Open Discussion	Water Leaks and Corrosion Interference Currents		Developing a Smart Virtual Assistant Tool for Sewer Asset Management	Managing Scaleup Challenges: Fiber Optic Deployment & Pipeline Integrity Monitoring Innovations for Long-Distance Pipelines	Subs, Cross-Over Adapters & Pipe Threads	Drilling Mud, Additives, Solidification & Testing Equipment	
2 – 2:25	Lessons Learned During Trenchless Planning, Design, and Construction			NASSCO PACP: How Can Your City Benefit?		Drill Pipe Maintenance, Inspection & Repair	Using Real-time Drilling Data for Improved Risk Management	
2:30 – 2:55	Seeing the Light: Practical Approaches to UV-Cured and Reinforced CIPP Lining Design	Put the Money Where the Pipe is: Optimizing Pipeline Rehabilitation Projects					Benefits of Increased Rotary Speeds on Maxi HDD Units	
3:00-5:00	EXHIBITS OPEN & MIXER						SAFETY ZONE: Confined Space Challenge	
5:30-7:00	Underground Infrastructure Awards (ticketed event)/Room #361A-F							

WEDNESDAY, MARCH 5

7:00-5:30		Registration								
	Room 351EB Track VIII <i>Sewer/Water</i>	Room 351DA Track IX <i>Sewer/Water</i>	Room 351FC Track X <i>Sewer /Water</i>	Room 350ED Track XI <i>Emerging Technology</i>	Room 360CF Track XII <i>HDD</i>	Room 360AD Track XIII-A <i>Energy Pipelines: Corrosion</i>	Room 360BE Track XIII-B <i>Energy Pipelines: Construction</i>	EXHIBIT HALL/ THEATER		
8 – 8:25	KEYNOTE ADDRESS Randy Macchi, Director of Houston <i>Public Works</i>	Confined Space Training Part 1			Effects of Power and Frequency on Penetration Range and Data Rates	Post Hydrotest to Commissioning or Mothballing of Pipelines, Safe Alternative to Traditional Practices	Intro Panel: Policies & Regulations			
8:30 – 8:55				3D Mapping of Subsurface Utilities	Contractors Roundtable – All	Navigating the Crowded & Electrified Underground: Advanced Detection of AC/DC Interferences for Sustainable Infrastructure	Part 1: INGAA on regulation, outlook			
9 – 9:25	Construction Methods Driving Utility Design Along TxDOTs IH35 CapEx Central (LBL Section)	Utility Contractor Goes Above and Beyond to Honor Pledge to City	Setting Up Projects with More Bid Appeal for Contractors: Friendswood's Trenchless Trio of Methods	Replacing Asbestos Cement Pipe by Close Tolerance Pipe Slurrification (CTPS)	Champlain Hudson 10,400 LF of 20" Steel Casing HDDs with Zero Welding or Pipe String-Out	Corrosion Solutions for Underground Assets	Part 2: Impacts of Election and Other Political Fallout (Rice Baker Institute)	9 a.m.-12 p.m. Confined Space Training Part 2		
9:30 – 9:55	Preserving Casper's Infra-structure: Large-Diameter Pipeline Trenchless Rehabilitation Project	West Texas Development: Responding to Increasing Wastewater Flows in Downtown Lubbock	Trying to Reason with the Hurricane Season				AMPP's Transition From NACE: How AMPP Reorganized to Meet Industry Needs, and the Programs and Services Now Available			9:30-10:55 Contractors Panel: Changing Face of Pipeline Construction in Wake of Green Energy
10 – 10:25		Performance Evaluation of Embedded Stormwater Chambers Under Simulated Highway Truck Loads	Critical Role of Documentation and Inspection in Construction Success	Ice Pigging: Advanced Pipe-Cleaning Technology			11-11:30 Hydrogen Construction Outlook: Challenges, Limitations, Potential			
10:30 – 1:30		EXHIBITS OPEN/LUNCH							11 a.m.-12:30 p.m. HDD Hall of Fame Interactive Conversations	
1:30 – 1:55	Surviving Submittals	Is Same-Day Watermain Rehabilitation Possible?	Panel: A River Runs Through it ... Twice!	Optimizing Detention System Releases to Mitigate Localized Flooding Impact	Safest Solution for Crews Working Exit-Side HDD Operations		Owners Panel: State of Construction Plans & Capital Investment, Near- and Long-Term			
2 – 2:25	Advances in Remaining Useful Life Analysis for Large-Diameter Pipelines	Over the River and Through the... River		Extending Pipe Service Life Using BEM	Contractors Roundtable – Telecom					
2:30 – 2:55			Avoiding Headaches in Construction Phase & Post-Construction Services	Next-Generation Large-Diameter SIPP Technology by Elite Pipeline Services						
3:00-5:00		EXHIBITS OPEN AND MIXER								
5:15-7:00		HDD REUNION AND HALL OF FAME INDUCTION (ticketed event)/Room #361A-F								
7:00-10:00		HDDA FUNCTION (private)								

THURSDAY, MARCH 6

7:00-11:30		Registration			
	Room 351EB Track XIV <i>Sewer/Water</i>	Room 351DA Track XV <i>Sewer/Water</i>	ROOM 351FC Track XVI <i>Sewer/Water</i>	ROOM 360ED Track XVII <i>Engineering Ethics Course</i>	
8 – 8:25	Harnessing the Power of AI to Enhance Pipeline Monitoring & Leak Detection	New Era of Utility Mapping: How AI is Redefining Infrastructure Projects & Subsurface Utility Ecosystem	Opportunities for Physical Pipeline Barriers in the USA		
8:30 – 8:55			Inspector and CM Workforce Development: Utilizing Human Factors Technologies to Drive Performance Improvements	Texas Civil Engineering Ethics Course	
9 – 9:30	Manhole Rehab That Matters	Scanning Critical Host Pipes through Carbon Fiber, CIPP & SIPP Applications Using BEM Technology
