

# Overcoming Design and Construction Challenges in Deep Underground Infrastructure

Karissa Weitzel

Emile Lang

Reyna Johnson

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Agenda

- Project Background
- Design and Construction Challenges
- Key Takeaways

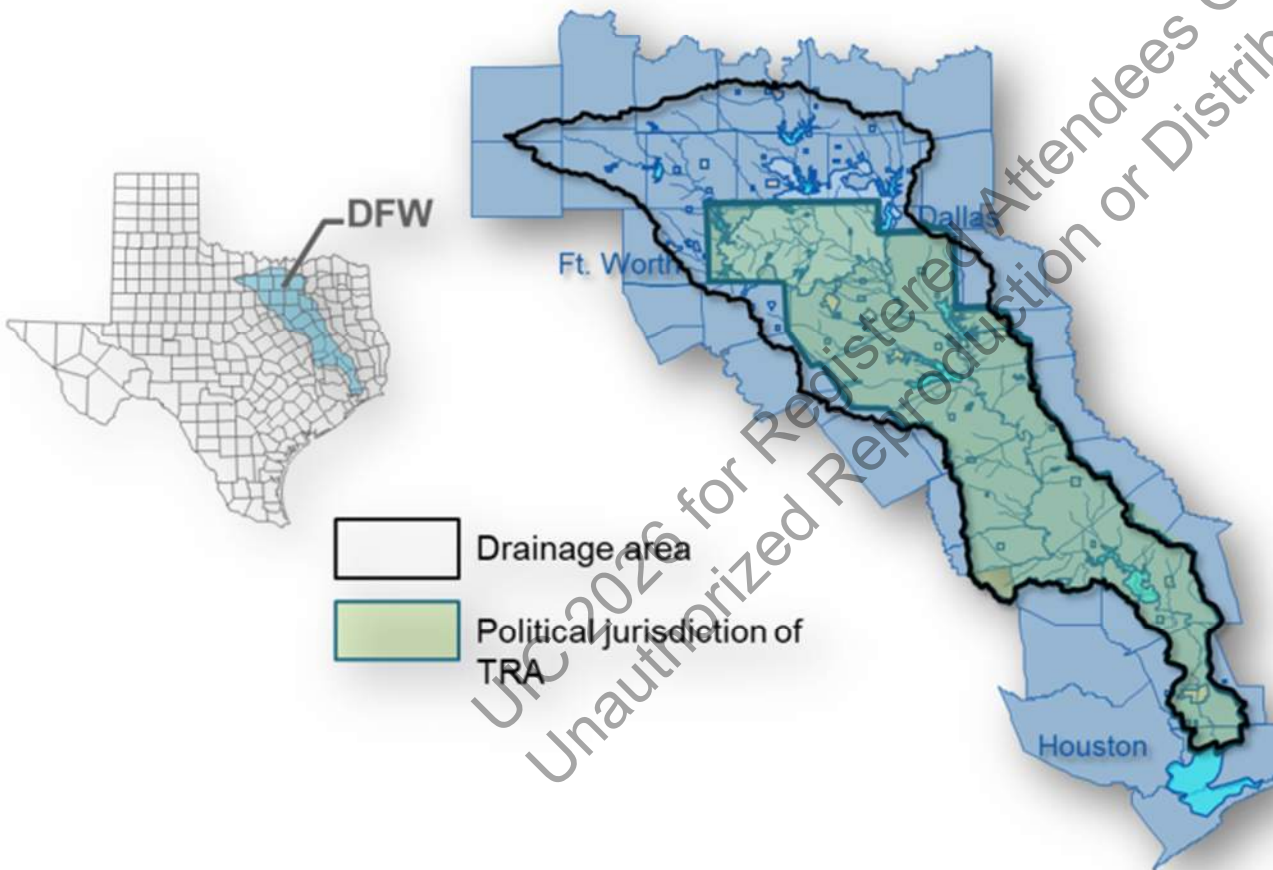

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Trinity River Authority of Texas

- Created by State of Texas in 1955
- 25 Board members appointed by Texas Governor
- 18,000-square-mile Trinity River basin

# TRA Northern Region Operating Systems

## Wastewater Systems

CRWS

DCRWS

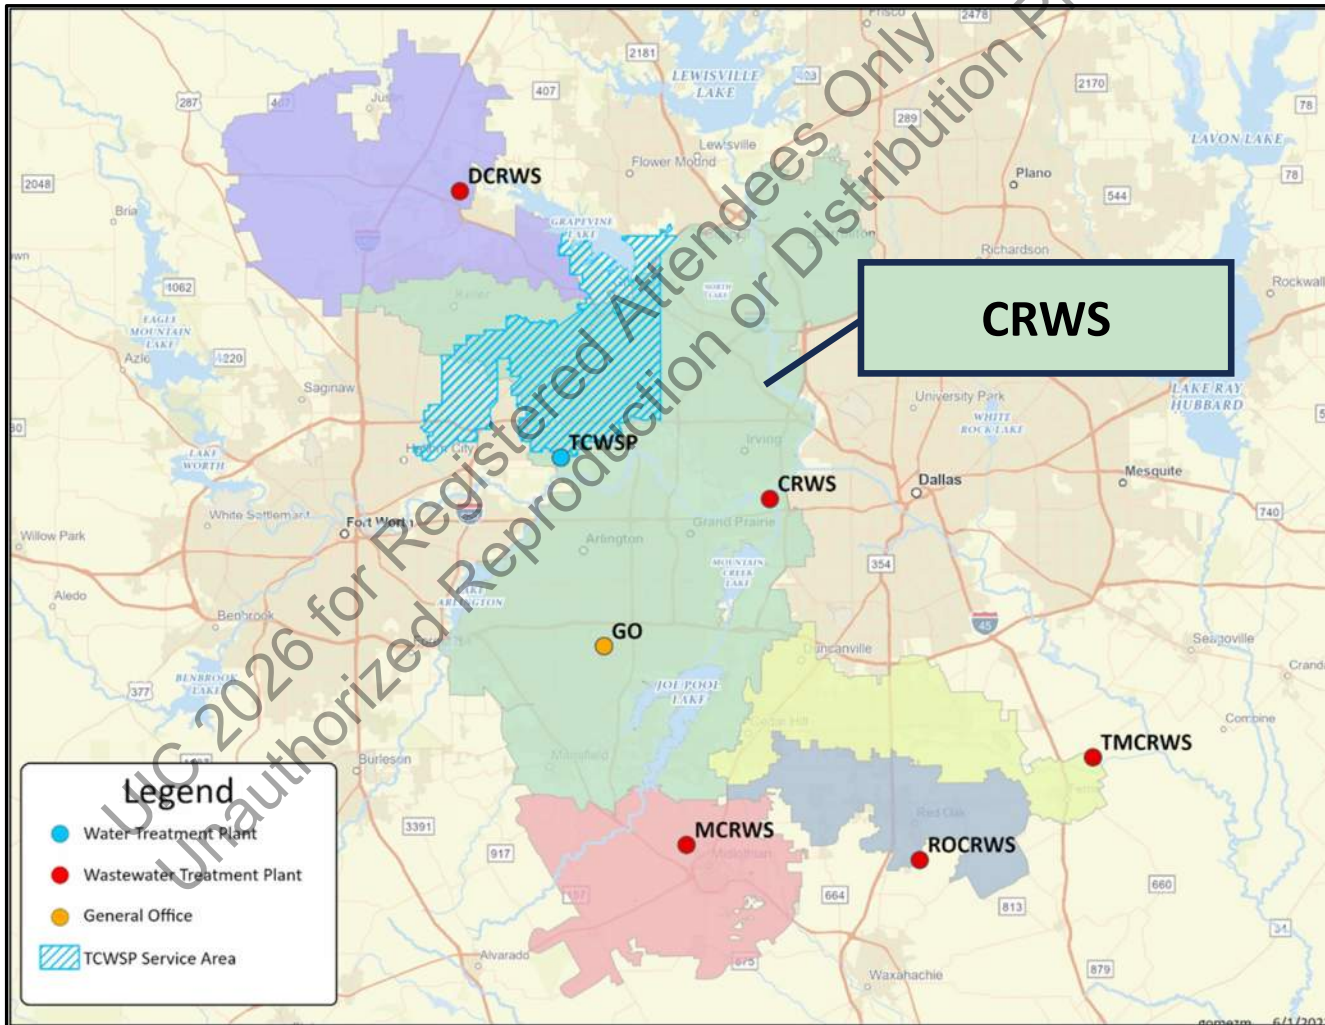

MCRWS

ROCRWS

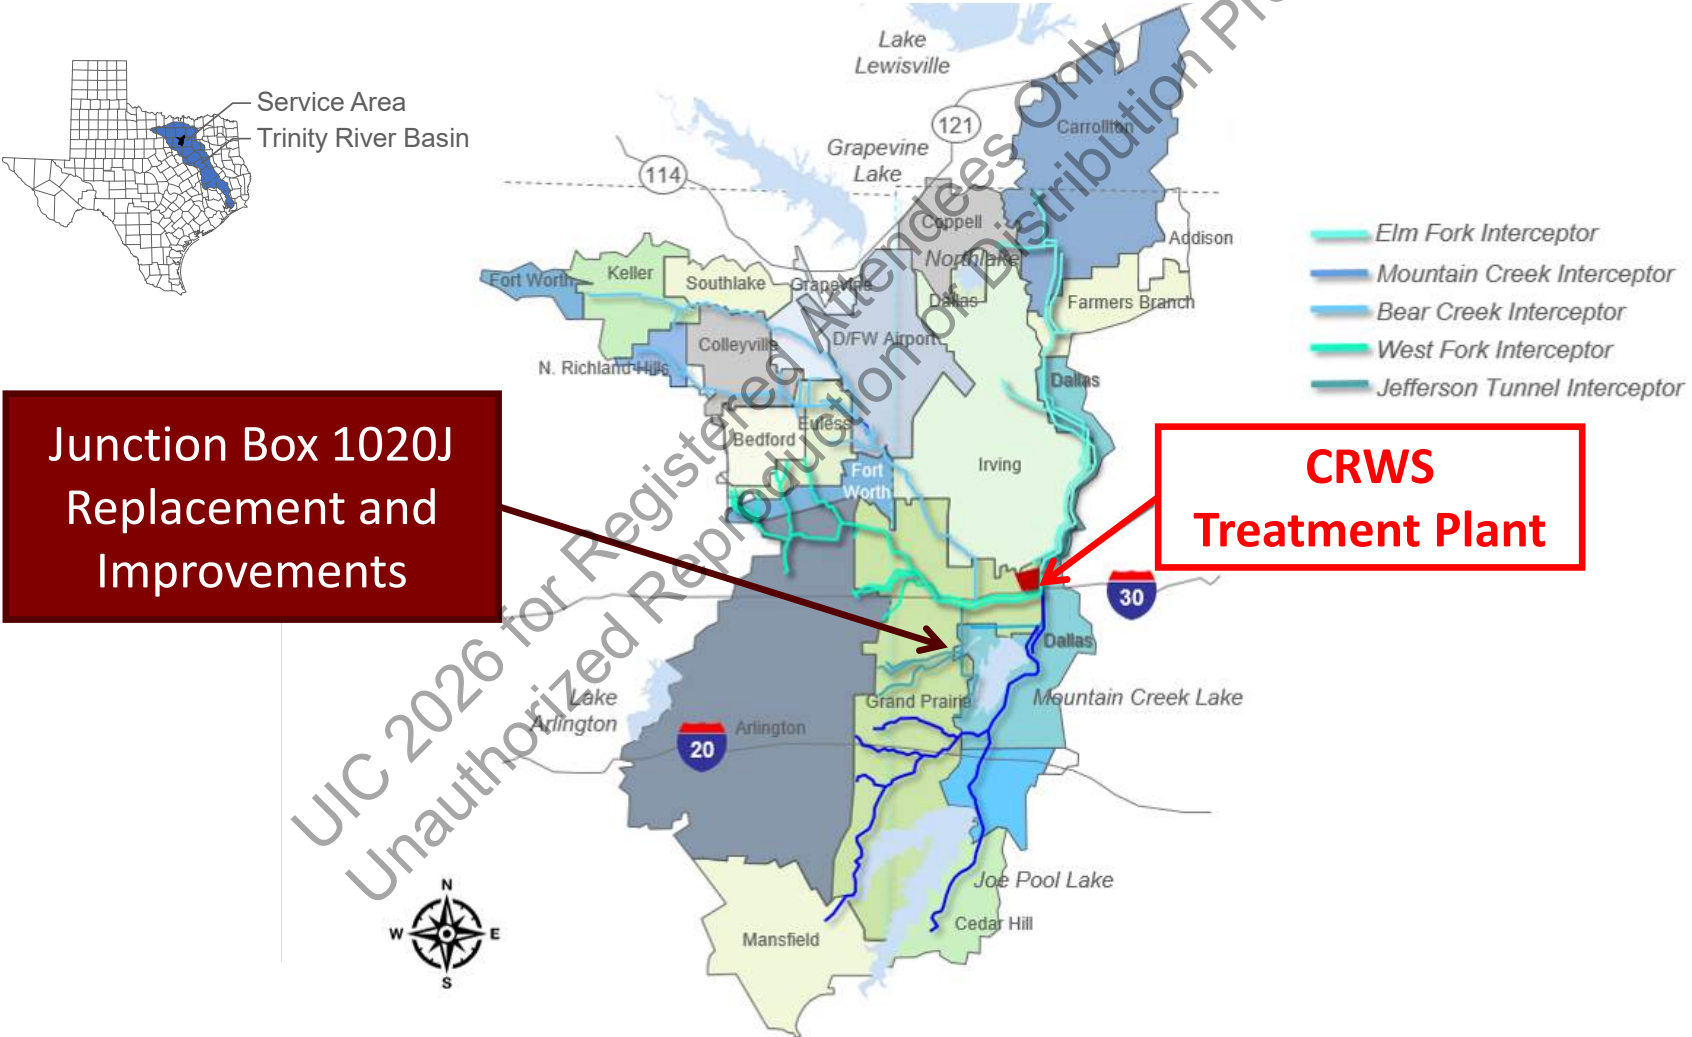

TMCRWS

## Water System

TCWSP

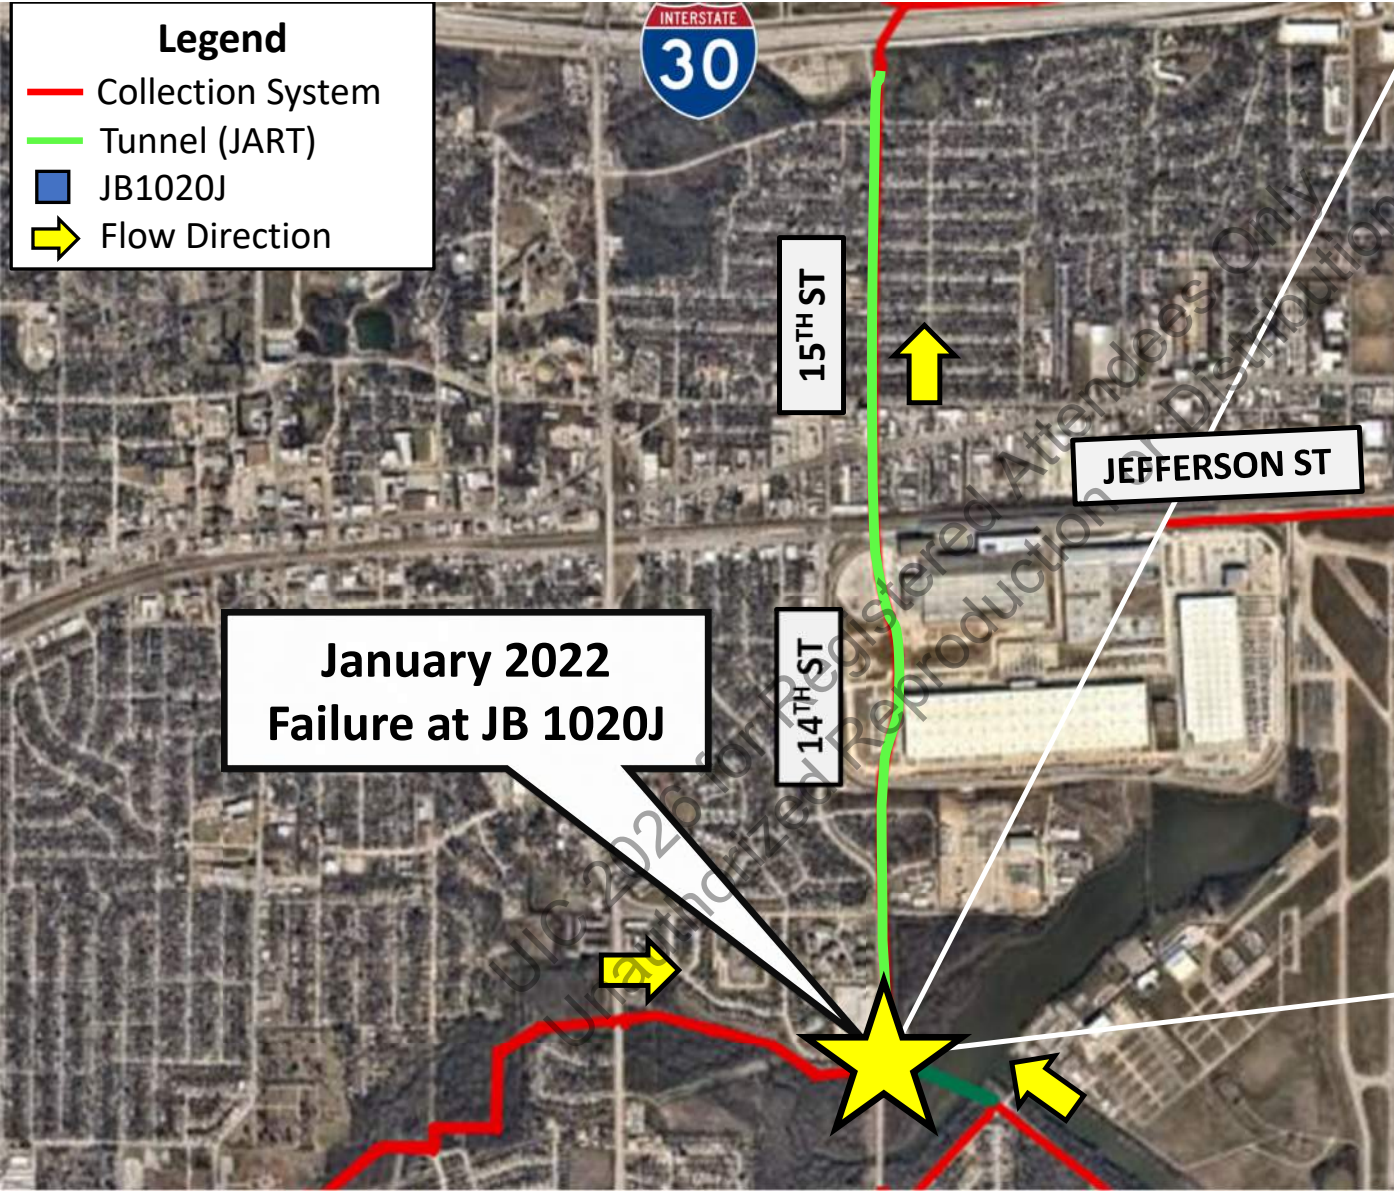

# Central Regional Wastewater System (CRWS)

UIC 2026 for Registered Attendees Only  
Unauthorized Reproduction or Distribution Prohibited

**Legend**

- Collection System
- Tunnel (JART)
- JB1020J
- ➔ Flow Direction

**Mountain  
Creek Lake**

# Project Background

- Existing Structure Failure
- Depth Up to 60-FT
- Consolidate Existing Gravity Sewers:
  - Spaghetti Bowl: 24-, 27-, 30-, and 48-inch
- Key constraints:
  - Soils
  - Floodplain
  - Maintaining Existing Operations

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Project Background Deep Infrastructure

JB 1020J  
60-foot depth

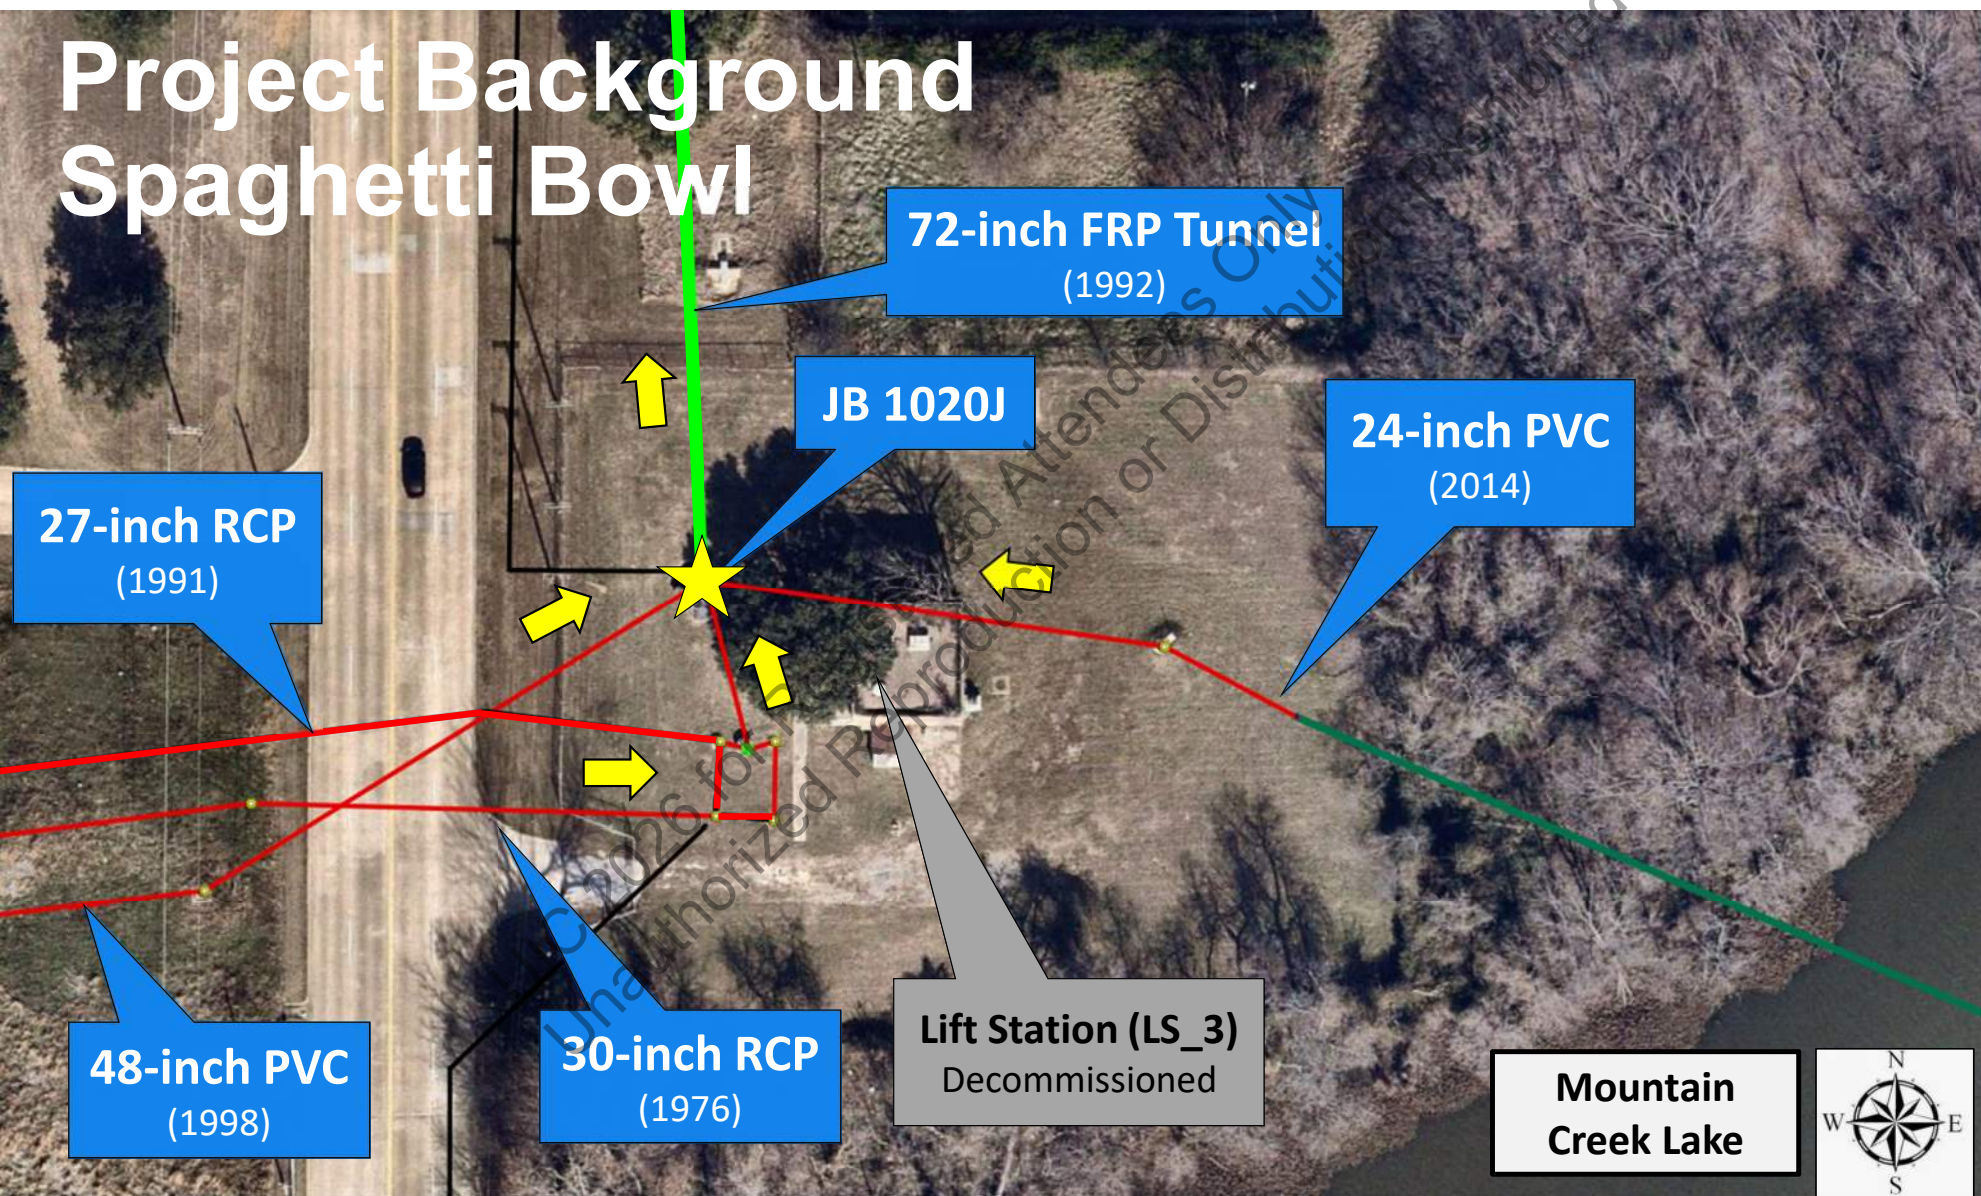

JB 1020J  
January 2022 Failure

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Project Background Spaghetti Bowl

# Project Background Existing Structure Failure

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

Oncor  
Substation

72-inch Tunnel

JB 1020J

24-inch PVC

LS\_3  
Decommissioned

27-inch RCP

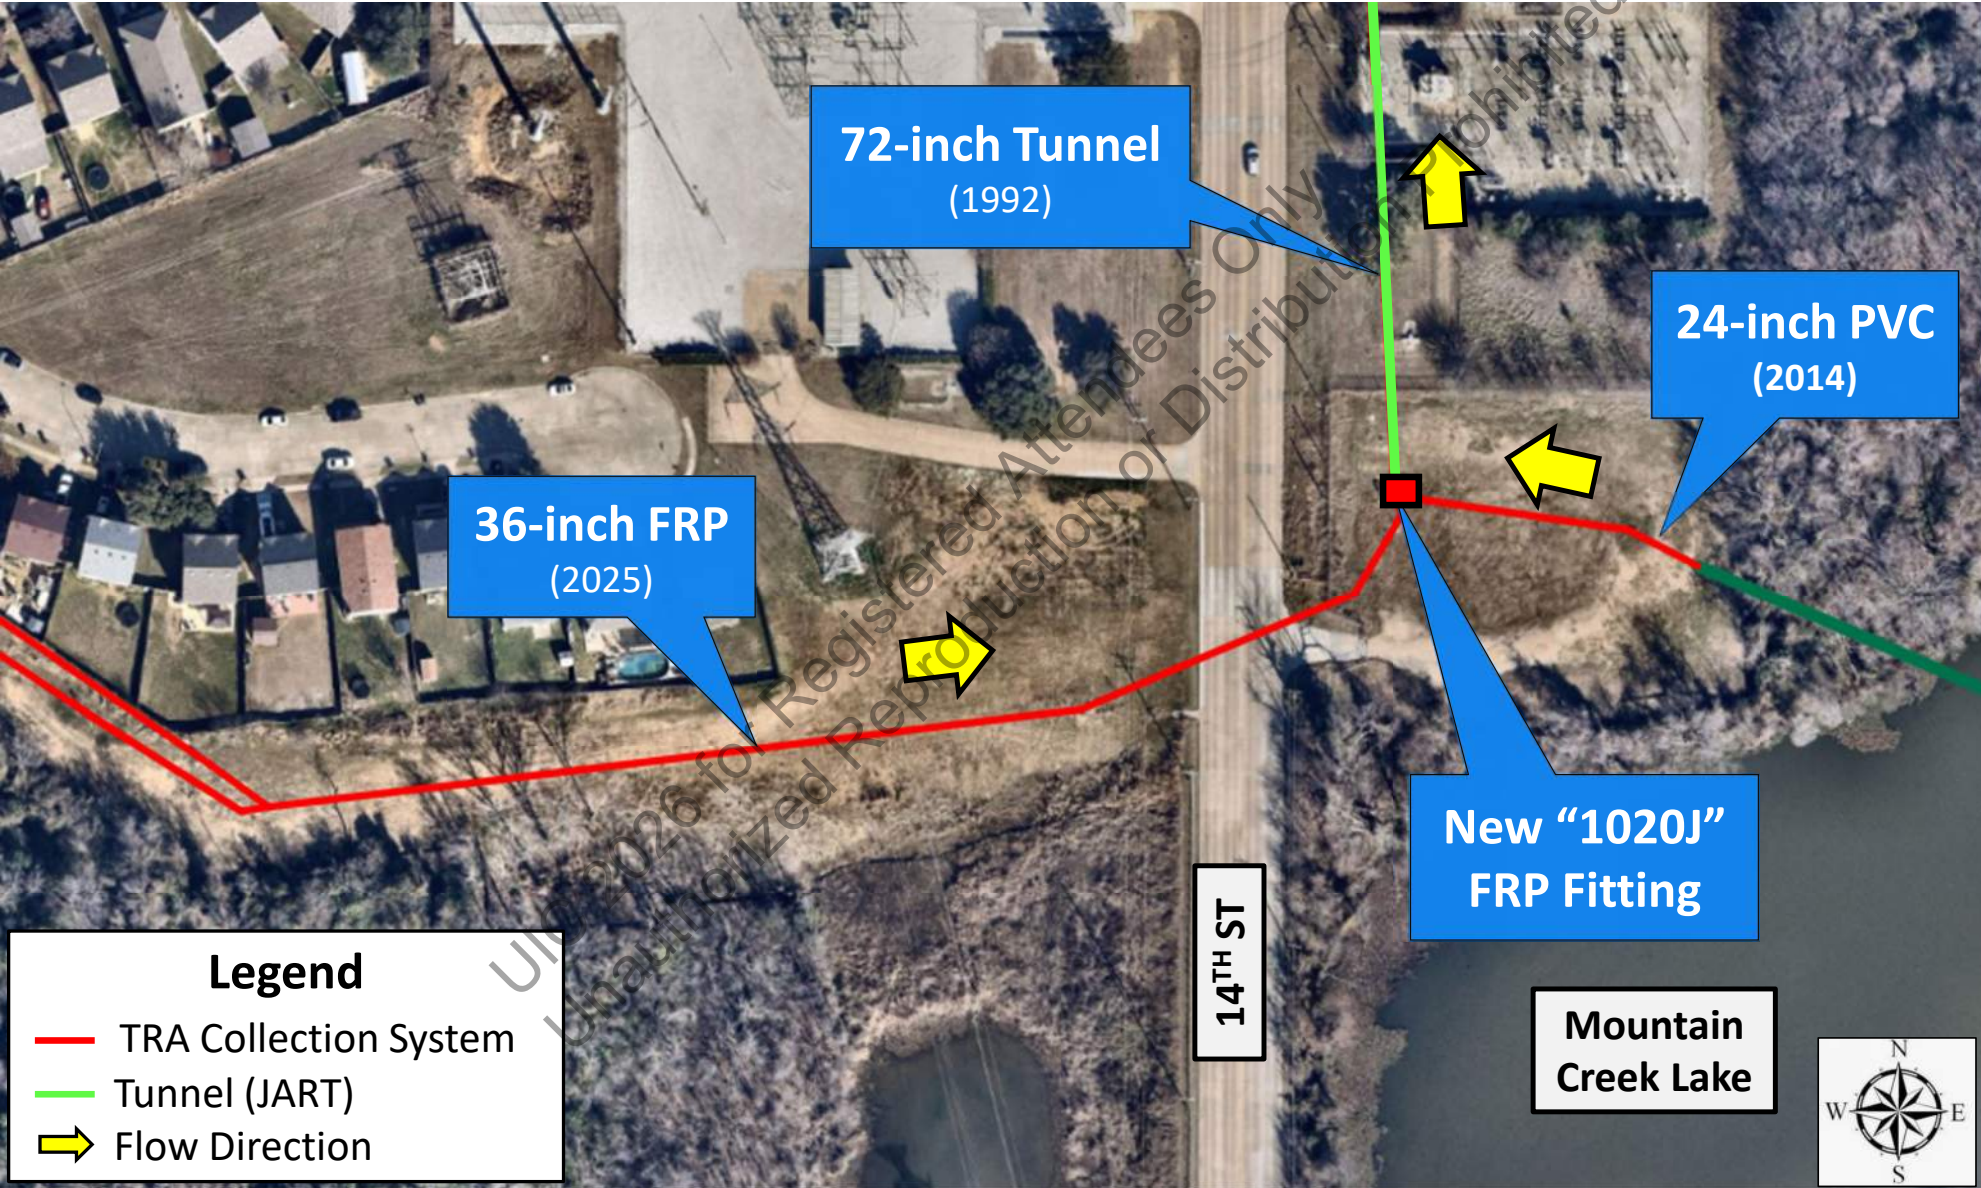

30-inch RCP

48-inch PVC

14<sup>TH</sup> ST

Mountain  
Creek Lake

# Why is Deep Underground Infrastructure Challenging?

- Up to 60-ft depth
- Increased construction risk with depth
- Access and safety concerns
- Ground water
- Cost and schedule sensitivity

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Challenge 2

## Large Structure Design

- Existing infrastructure
- Strategically placed manholes
- Custom fitting configuration
- Structural considerations

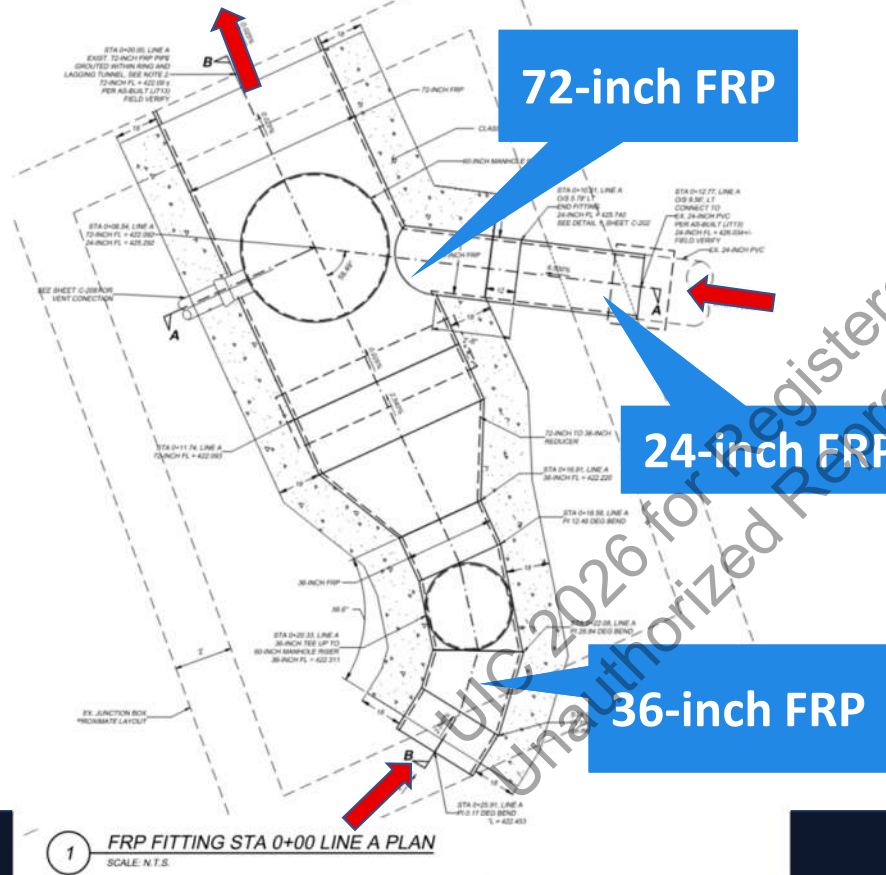

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Large Structure Design New "1020J" FRP Fitting

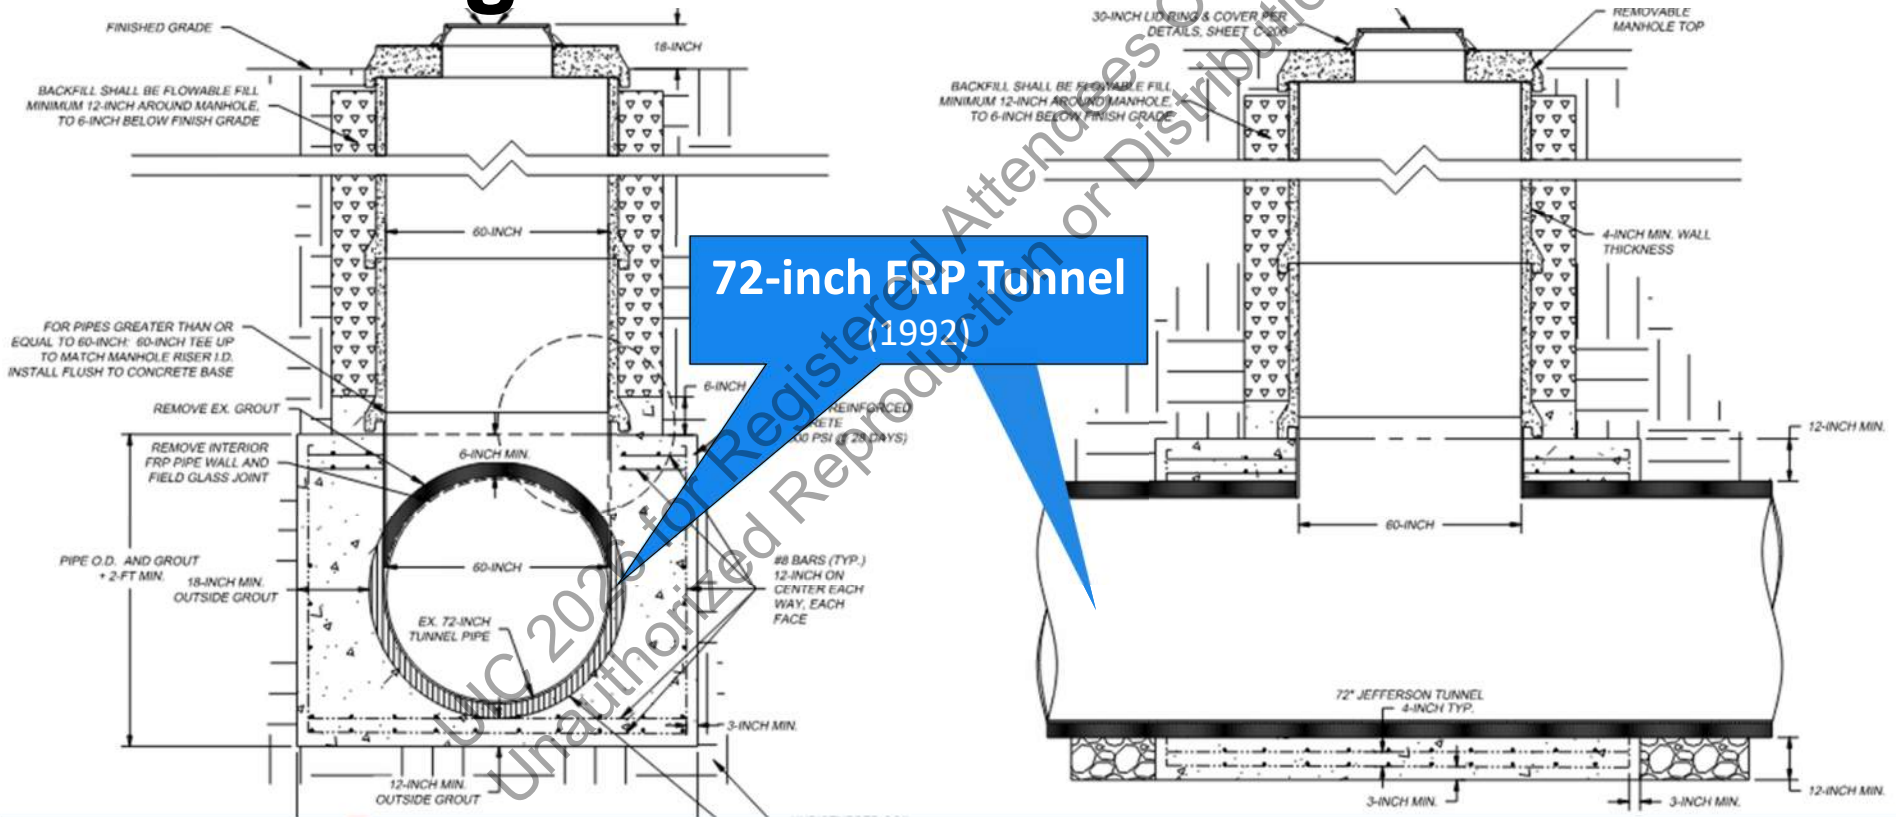

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Large Structure Design Discharge MH

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Challenge 3

## Site Constraint

- Excavation limitations for construction and future maintenance
- Existing compromised shaft
- Oncor overhead electric

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Challenge 4

## Maintaining Continuous Sewer Flow

- Existing service constraints
- SSO risks
- Suggested bypass

UIC 2026 for Registered Attendees Only  
Unauthorized Reproduction or Distribution Prohibited

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

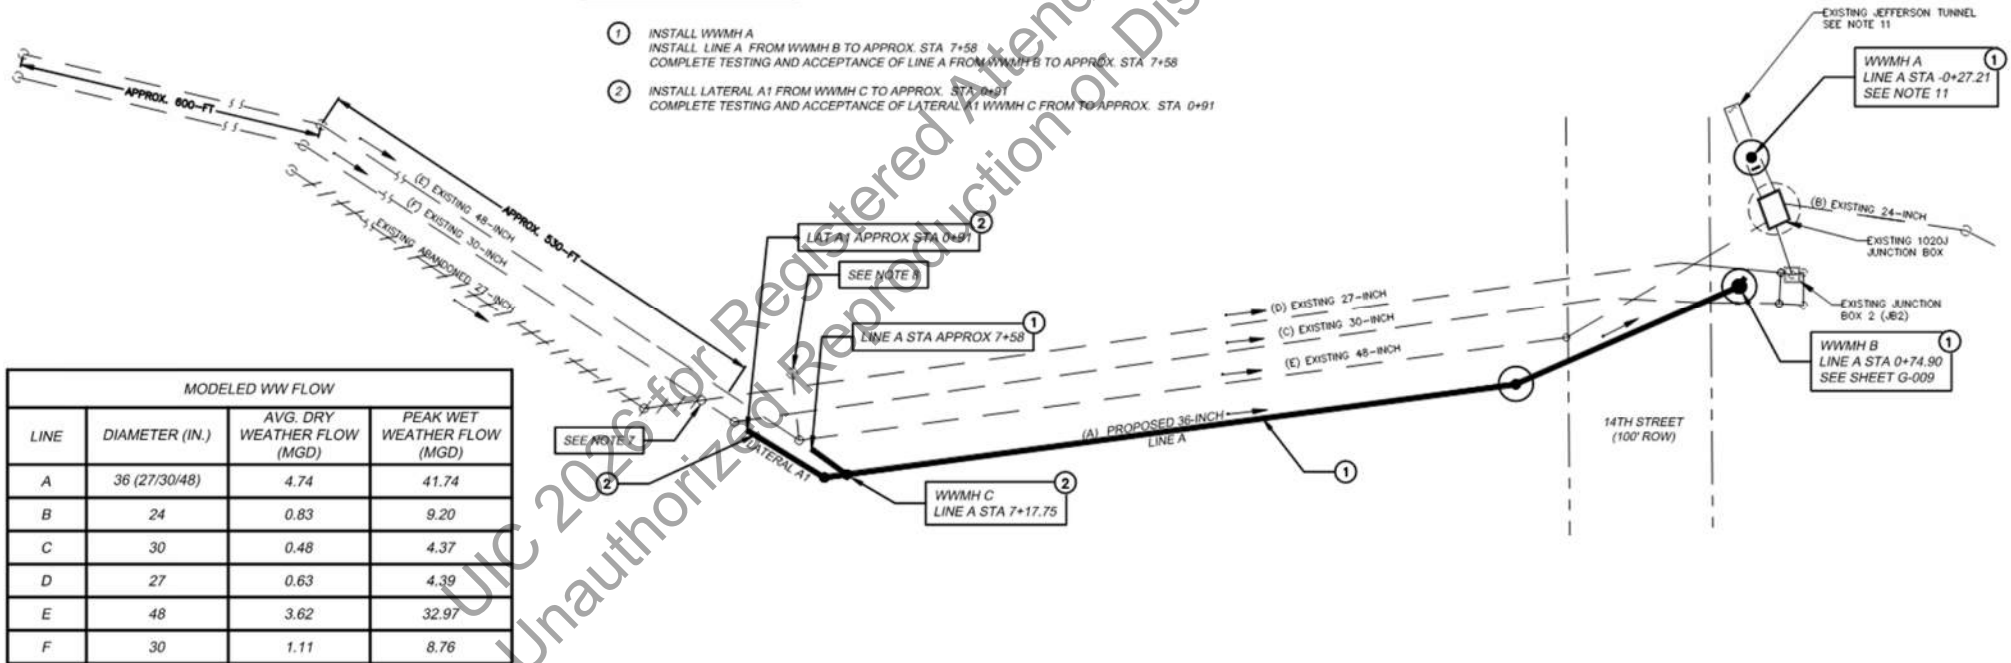

# Challenge 4

## Maintaining Continuous Sewer Flow

**WEST SEQUENCE OF OPERATIONS:**

- ① INSTALL WWMH A  
INSTALL LINE A FROM WWMH B TO APPROX. STA 7+58  
COMPLETE TESTING AND ACCEPTANCE OF LINE A FROM WWMH B TO APPROX. STA 7+58
- ② INSTALL LATERAL A1 FROM WWMH C TO APPROX. STA 0+91  
COMPLETE TESTING AND ACCEPTANCE OF LATERAL A1 WWMH C FROM TO APPROX. STA 0+91

MODELED WW FLOW			
LINE	DIAMETER (IN.)	AVG. DRY WEATHER FLOW (MGD)	PEAK WET WEATHER FLOW (MGD)
A	36 (27/30/48)	4.74	41.74
B	24	0.83	9.20
C	30	0.48	4.37
D	27	0.63	4.39
E	48	3.62	32.97
F	30	1.11	8.76

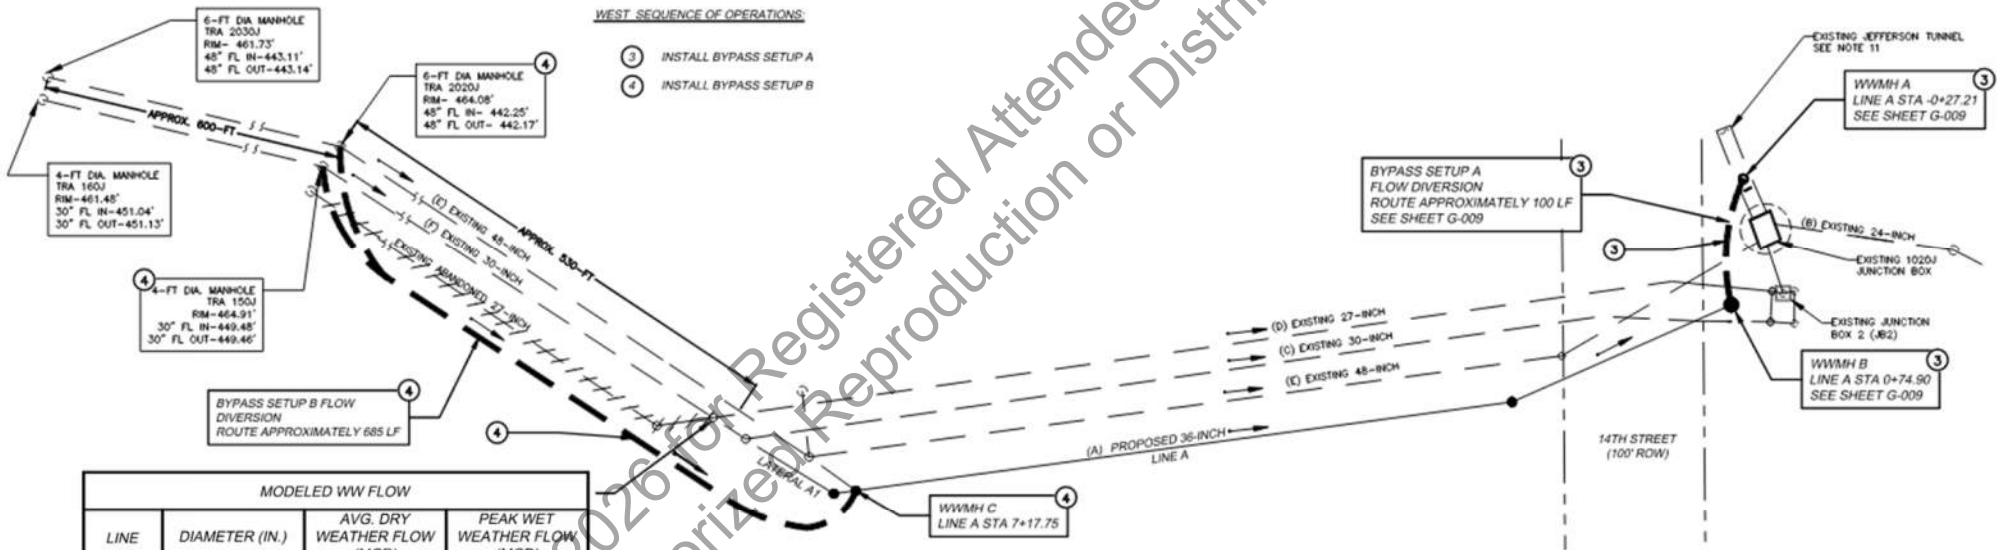

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Challenge 4

## Maintaining Continuous Sewer Flow

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Construction Overview

- Trench stability and safety risks
- Field modifications
- Survey control and tolerances
- Sequencing of deep pipe and manhole installation
- Contractor and inspection coordination

UIC 2026 for Registered Attendees Only  
Unauthorized Reproduction or Distribution Prohibited

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Site Constraints

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Site Constraints

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Large Diameter Pipe and Structure Construction

NOTE: Liner Plate Shaft to be left in place except the top 10' +/-

12" MIN CLSM

Offset MH Slightly if needed to allow for 12" FlowFill

Fill Entire Shaft Area from undisturbed Shale to Bottom of Concrete w/CLSM

2' Beyond MH (Both Side) Approx. 2' Depth

Existing Shale

This Side of MH excavated down to Springling in Shale

Henry B

# Large Diameter Pipe and Structure Construction

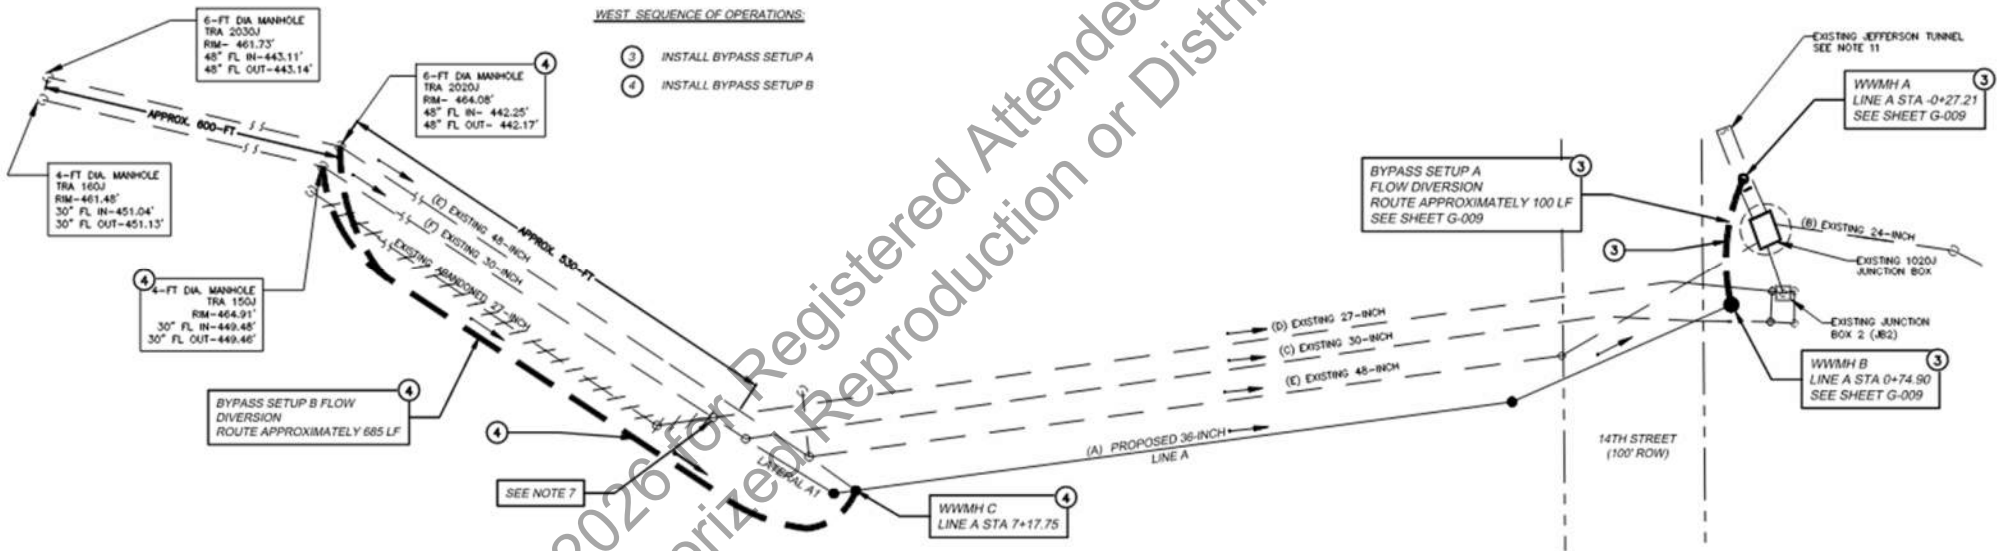

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Bypass Pumping and Staged Construction

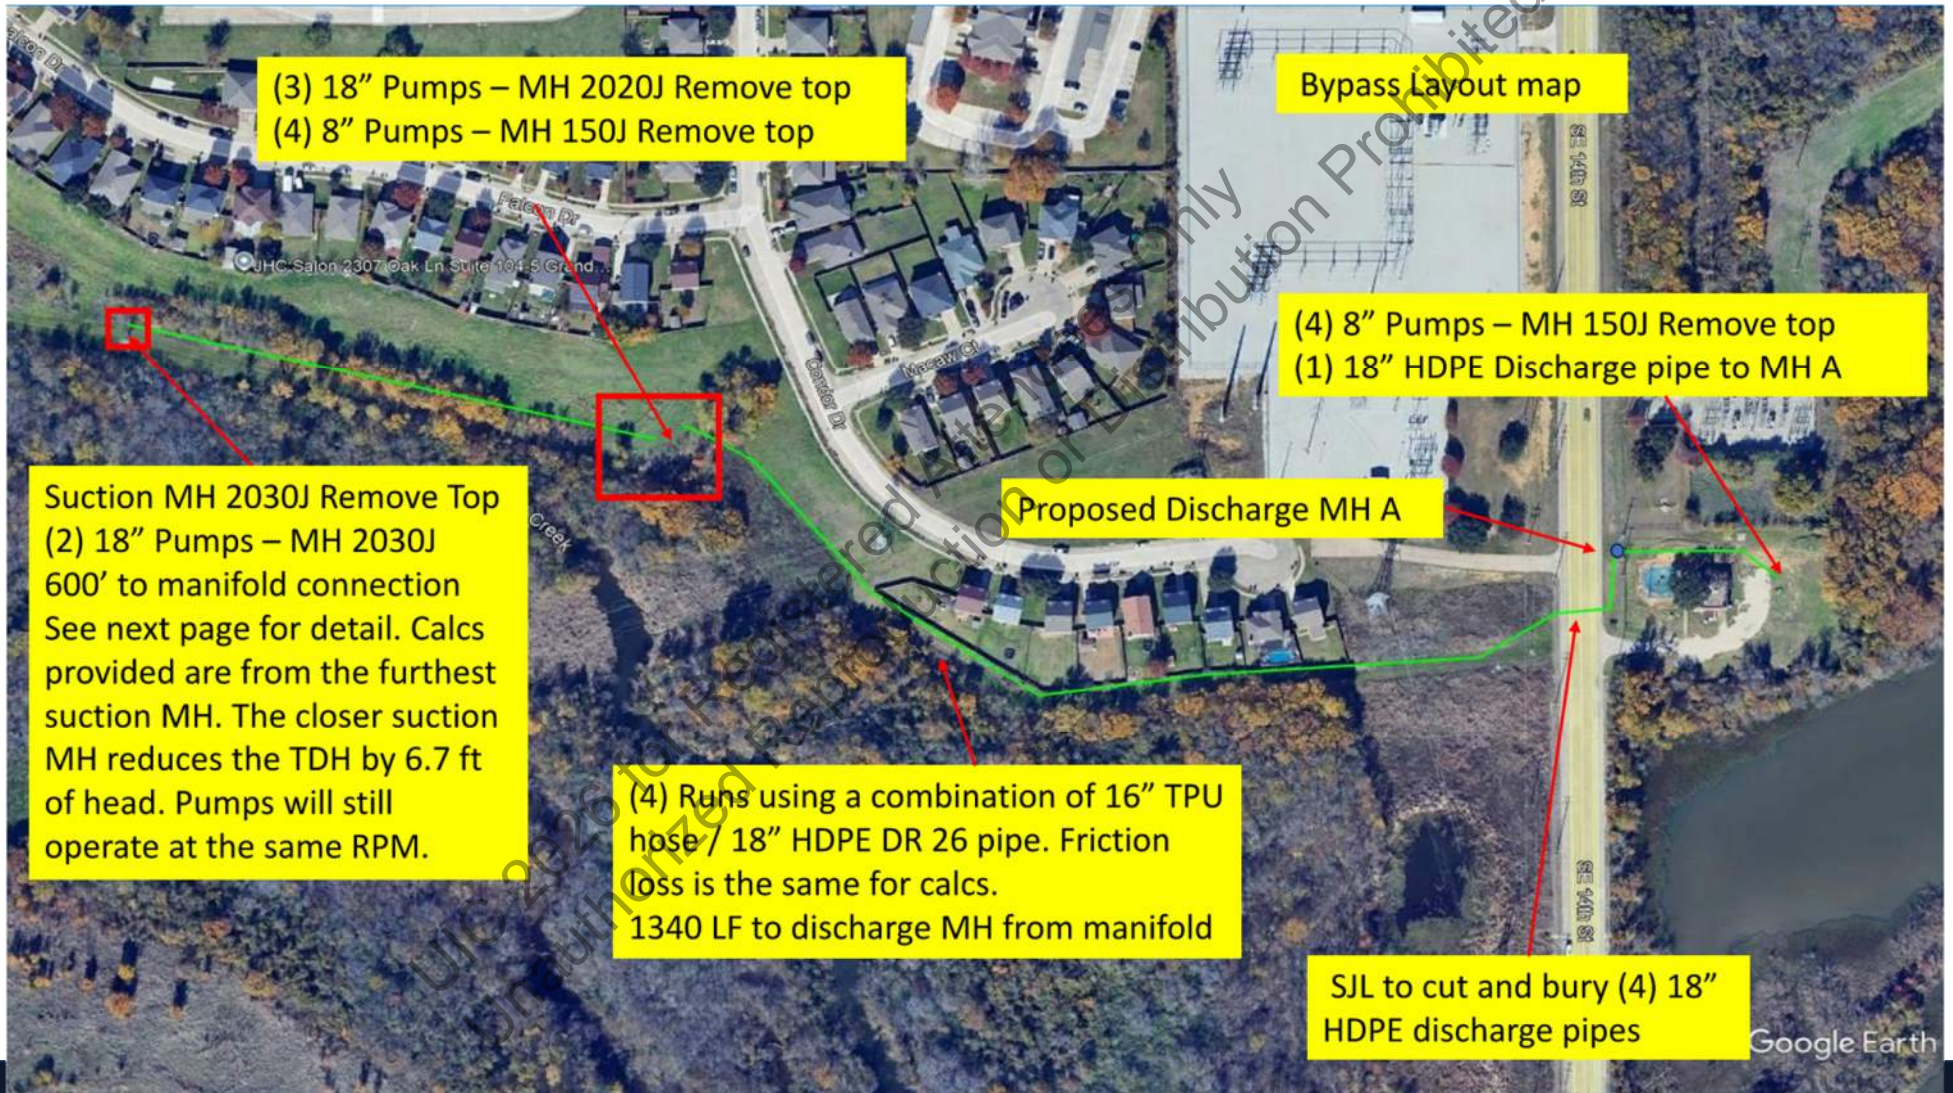

UIC 2026 for Registered Attendees Only  
Unauthorized Reproduction or Distribution Prohibited

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Bypass Pumping and Staged Construction

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Bypass Pumping and Staged Construction

- Single bypass system
- Phasing and sequencing
- Redundancy and contingency planning
- Key coordination lessons

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Key Takeaways

- Early constructability reviews
- Contractor engagement
- Safety planning for deep work
- Monitoring and inspection protocols
- Design modifications during construction
- Collaboration between owner, engineer, contractor, and manufacturer

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

# Key Takeaways for Designers

- Design considerations for deep large-diameter gravity pipe
- Importance of constructability and operations planning
- Applicability to future projects

UIC 2026 for Registered Attendees Only  
Unauthorized Reproduction or Distribution Prohibited

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas
