# National Drilling Mud Disposal Database

- Drilling fluid (mud) is an important part of most drilling projects
- What do you do with the mud when the project is over?
- Maybe we can help...

UIC 2026 for Registered Attendees Only  
Unauthorized Reproduction or Distribution Prohibited

January 27 – 28, 2026

Henry B. Gonzalez Convention Center, San Antonio, Texas

Welcome to our community driven mud disposal database. Here you will be able to view drilling community noted disposal locations, add locations you have identified, and note any changes to existing entries. This handy database will grow, as you help us grow it! We encourage you to add locations that you are aware of in your areas of work.

This database is completely free of charge to view and use, provided to you by Tulsa Rig Iron and our industry partners.

Simply navigate the map below to see pin locations of disposal sites. (use ctrl+scroll to zoom the map if viewing from your desktop, or use two fingers to zoom the map from your mobile device)
